# NEWSLETTER

**May 16-31, 2005**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 16-31, 2005**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Associate Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

<b><u>Documents Received on Monday, May 16, 2005</u></b>			
2005054004	<p>PG&amp;E Jefferson-Martin 230 kV Transmission Line Project Environmental Assessment National Park Service San Bruno--San Mateo</p> <p>The proposed project is located in the San Francisco Peninsula Watershed, managed by the City and County of San Francisco, and is located in San Mateo County. The EA centers on a settlement of rights that the National Park Service (NPS) claims under a Scenic and Recreational Easement. A 3.3-mile portion of the Jefferson-Martin project lies within the NPS Easement. The NPS and PG&amp;E disagree as to the rights granted by that Easement with regard to this project. PG&amp;E has proposed a Settlement Agreement to resolve the dispute. The EA has been prepared to analyze the impacts of the proposed Settlement Agreement between the National Park Service and PG&amp;E, including the project work that would occur within the Easement.</p>	<b>EA</b>	06/06/2005
2004041081	<p>Precise Development Plan and Desalination Plant Project (EIR 03-05) Carlsbad, City of Carlsbad, Oceanside, San Marcos, Vista--San Diego</p> <p>The project is a proposal to (1) construct and operate a 50 million gallon per day seawater desalination plant and other appurtenant and ancillary water and support facilities to produce potable water, including an offsite water delivery pipeline system; and (2) establish a Precise Development Plan (PDP) for the Encina Power Station (EPS). The desalination plant would be located at the Encina Power Station in Carlsbad. The offsite pipeline system would extend into the cities of Carlsbad, Oceanside, and Vista. The PDP would serve as the primary City of Carlsbad land use application for the desalination plant and as a document to establish existing land uses at and development land use standards for the EPS. The project does not proposed to modify EPS operations or existing facilities, other than discharge channel and electrical connections.</p>	<b>EIR</b>	06/29/2005
2004061090	<p>Elliott and Vander Weerd Property EIR Visalia, City of Visalia--Tulare</p> <p>The proposed project includes the annexation of approximately 80 acres from the County into the Visalia City limits; a General Plan Amendment changing the current Agriculture designation to Residential, rezoning to R-1-6; cancellation of the Williamson Act contracts on two of the three parcels (60 acres) and a request for approval of two Vested Tentative Subdivision Maps to create 206 lots (at least 191 single-family units, 18 duplex units and 23 multi-family units.) The project also proposes 6.3 acres (net) of parkland.</p>	<b>FIN</b>	
2004082113	<p>El Dorado Hills Incorporation - El Dorado LAFCO Project No. 03-10 El Dorado County Local Agency Formation Commission --El Dorado</p> <p>Proposed incorporation of El Dorado Hills as a new city, in accordance with Cortese-Knox-Hertzberg, Cal. Gov't. Code Sect. 56000 et. seq. and El Dorado LAFCO policies. Incorporation area extends from Sacramento County Line boundaries and governmental reorganization.</p>	<b>FIN</b>

<b><u>Documents Received on Monday, May 16, 2005</u></b>			
2005012041	Shinn Historic Park and Arboretum Fremont, City of Fremont--Alameda The project sponsor, the City of Fremont, proposes to relocate the Santos barn from a temporary to a permanent location at the Shinn Historical and Arboretum, which is on the City of Fremont's list of primary historic resources and on the California Register of Historic Places. The project entails moving a 50-foot by 26-ft barn approximately 15 feet west to its proposed location and placing it on a permanent foundation. The existing barn, donated to the City in 2002, would be stabilized and could eventually be renovated and made available for public use.	<b>FIN</b>	
2005041065	Petco Headquarters San Diego, City of San Diego--San Diego Easement Abandonment and Site Development Permit (EA/SDP No. 47630) to construct a new 6-story 189,500 sf office building and ground level parking with a 4-story subterranean parking structure totaling 394,640 sf for Petco Headquarters on an approximate 12.197 acre site. The site also has 2 existing office buildings that would also be utilized.	<b>FIN</b>	
2005051076	SPA #9, ZCC #33, Map #102-1; Tentative Tract #6509 Kern County Planning Department Bakersfield--Kern (a) Amend the Chevron Section One Specific Plan from 6.1 (General Commercial) and 5.3 (Residential - 10 du/ac) to 5.2 (Residential - 14 du/ac); (b) a change in zone classification from C-2 PD H (General Commercial - Precise Development Plan - Airport Height) and R-1 H (Low Density Residential - Airport Height) to R-2 PD H (Medium Density Residential - Precise Development Plan - Airport Height). The project site is approximately 8 acres total of vacant land. Staff approximates a maximum of 108 dwelling units to be built on the site.	<b>MND</b>	06/14/2005
2005051139	Nexus University Science Center San Diego, City of San Diego--San Diego Site Development Permit, Rezone, and Tentative Map to construct three buildings on an undeveloped, 9.6-acre site. Proposed Building 1 would be three stories (approximately 50 feet in height) and have a gross floor area (GFA) of approximately 49,920 sf; Building 2 would be two stories (approximately 50 feet in height) with a GFA of approximately 89,678 sf; and Building 3 would be two stories (approximately 50 feet in height) with a GFA of approximately 51,858 sf. The project site is Building 3 to be rezoned from RS-1-14 (Residential) to IP-1-1 (Industrial Park) to develop the proposed project. The project would also extend Executive Drive from its existing terminus eastward to a new terminus with the project site. The project site is located at the eastern terminus of Executive Drive, northwest of the I-805 / La Jolla Village Drive interchange, in the University Community Plan area.	<b>MND</b>	06/14/2005
2005051094	South Region Elementary School No. 2, Florence Area Los Angeles Unified School District --Los Angeles The proposed project consists of construction and operation of an elementary school providing approximately 79,000 square feet of development, including 42 classrooms, a multi-purpose room, a library, cafeteria, and administration offices serving 1,050 students in grades Kindergarten (K) through 6. School hours would	<b>NOP</b>	06/14/2005

2005051071	Resolution No. R3-2005-005; General Waiver of Waste Discharge Requirements Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo -- The Water Board proposes to adopt Resolution No. R3-2005-005; General Waiver of Waste Discharge Requirements for Reuse of Non-Hazardous Crude Oil Impacted Soil and Non-Hazardous Spent Sandblasting Aggregate on Active Oil Leases and Fee Properties (General Waiver). The proposed General Waiver establishes conditions under which certain oil-field materials may be reused and regulates the reuse of crude-oil impacted soils to protect waters of the State. Section 13269 of the California Water Code (CWC) authorizes the Water Board to waive waste discharge requirements (WDRs) for a specific discharge or specific types of discharges where such waiver is not against the public interest. The General Waiver would be in effect for five years beginning July 8, 2005.	<b>Neg</b>	06/14/2005

2005051074	Order No. R3-2005-006, General Waste Discharge Requirements for Discharges of Petroleum-Impacted Soils Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo -- The Central Coast Regional Water Quality Control Board proposes to adopt Order No. R3-2005-006, General Waste Discharge Requirements for Discharges of Petroleum-Impacted Soils to Waste Piles, Treatment and Processing Areas on Oil-Field Properties (General Order). The proposed General Order addresses the generation of hydrocarbon impacted soil waste piles during typical oil field operations. These hydrocarbon impacted soil waste piles meet the definition of a waste management unit under Title 27 and oil fields are identified in the Basin Plan as needing Waste Discharge Requirement regulation. Approximately 20 sites, primarily in the Santa Maria-Cat Canyon area, are known to have waste piles currently.	<b>Neg</b>	06/14/2005

1990010909	EAST VALLEY WATER RECLAMATION PROJECT Los Angeles, City of Los Angeles, City of--LOS ANGELES The Metropolitan Water District of Southern California (Metropolitan) will enter into a Local Resources Program (LRP) Agreement with the Los Angeles Department of Water and Power (LADWP) for the Hansen Area Water Recycling Phase I (Project). The Project would increase regional water supply reliability by replacing demand for imported water supplies within LADWP's service area. Metropolitan is acting as a Responsible Agency under CEQA. LADWP, acting as the Lead Agency and Applicant, prepared and processed a FEIR for the East Valley Water Reclamation Project, which included the Project activities. The FEIR was certified on August 20, 1991. Metropolitan will enter into an agreement with LADWP to provide incentive payments for up to 25 years for the Project, one of the 13 projects selected for Metropolitan's LRP. The Project will increase recycled water deliveries from the Donald C. Tillman Water Reclamation Plant to the Valley Generating Station. The recycled water will be used by the Valley Generating Station for cooling purposes and by potential future customers developed along the Project's proposed pipeline. Project facilities to be constructed include approximately 2,000 feet of pipeline and a new seven-million-gallon storage tank that connects to the existing East Valley Water Reclamation Project pipeline.	<b>NOD</b>	
1996032109	SCOTT WEAVER - MINO SUBDIVISION Del Norte County SMITH RIVER--DEL NORTE Amendment to a construction setback on lots 3 and 4 of the Scott Weaver Minor Subdivision this was recorded in July 1999. <b><u>Documents Received on Monday, May 16, 2005</u></b>			
	tributaries. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0161-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sotoyome Resource Conservation District.		
2004122016	Park Bayshore PA 04-071 San Mateo, City of San Mateo--San Mateo The proposed project includes the demolition of an existing 33 unit motor court motel and the construction of a new 21 residential unit townhome/condominium project. The units will be three stories with a mix of two and three bedroom units with attached (tuck-under) garages. The site is located at 801 S. Bayshore Boulevard between Newbridge Avenue and Dakota Avenue.	<b>NOD</b>	
2005031069	New Elementary School #18 Rialto Unified School District Rialto--San Bernardino The District proposes the acquisition of approximately 13 acres for the construction and operation of a 1,206-student elementary school for grades K through 5. The school would entail development of 65,632 sf of building space in one-story buildings on a site located in a redevelopment area in the City of Rialto.	<b>NOD</b>	
2005032112	Carlos Elias - Major Subdivision - MJ0503C Del Norte County Planning Department --Del Norte Major Subdivision of a remainder 6.83-acre parcel into four parcels approximately 1.5 acres, 1.6 acres, 1.7 acres and 2.0 acres each in size. The remainder parcel was created as part of a previously recorded division that created four other parcels which are located south of the subject parcel. The General Plan Land Use designation for the parcel is RR (1/1) (Rural Residential - one dwelling unit per acre) and the zone designation is RRA-1-C(A)(H) (Rural Residential - one acre minimum lot size with Coastal access and bluff hazard conditions). The parcel is developed with one single-family residence and an accessory building. The undeveloped proposed parcels will utilize separate on-site sewage disposal systems and will be connected to a public water system. Due to the proximity of the parcel to the ocean, a bluff setback for building will be placed on the project approval. Access to all parcels is from Elias Way, an existing paved road, off of U.S. Highway 101.	<b>NOD</b>	
2005032113	Catherine Noble - Minor Subdivision - MS0505 Del Norte County Planning Department Crescent City--Del Norte Minor subdivision of a 7.27-acre parcel into three parcels approximately 2.7 acres, 2.5 acres and 2.0 acres each in size. The parcel has a General Plan Land Use designation of RR(1/2) (Rural Residential - one dwelling unit per two acres) and a zone designation of RR-2 (Rural Residential - two acre minimum lot size). The parcel is developed with two single-family residences. The proposed undeveloped parcel would utilize a separate well and on-site sewage disposal system. Access to all parcels would be from an existing road off of Highway 101.	<b>NOD</b>

<b><u>Documents Received on Monday, May 16, 2005</u></b>			
2005041002	<p>Proposed Site No. 2A West Side Educational Complex, Delano, CA Delano Union School District Delano--Kern</p> <p>The proposed project consists of constructing the educational complex, which would consist of: (1) One elementary school (K-5) with administration offices, 4 kindergarten classrooms, 25 standard classrooms, restroom facilities, playfields, play courts, and parking; (2) one middle school (grades 6-8) with administration, 32 standard classrooms, 4 science labs, 1 technology lab, 1 art classroom, 1 music classroom, gymnasium, restroom facilities, mechanical facilities, playfields and parking; and (3) joint use facilities consisting of a library and media center, kitchen, and multipurpose building. The proposed school would operate as a "single track modified calendar." Most of the students would be within walking distance of the schools. Special education transportation would be provided with school buses. The educational complex would be used for nighttime and weekend meetings and events on a regular basis. Nighttime lighting would be required for buildings and parking lots. The proposed elementary school has a master plan capacity of 600 students and the middle school has a master plan capacity of 800 students. Construction would not begin until approximately 2007-2008.</p>	<b>NOD</b>	
2005059033	<p>Streambed Alteration Agreement 1600-2003-5258-3 / THP 1-03-187 NAP Forestry and Fire Protection, Department of --Napa</p> <p>The applicant proposes two activities which include water drafting from an existing artificial in-stream reservoir and re-channelization of approximately 30 to 50 feet of a Class II stream. All work will be done with a back-hoe. The projects are located at 430 Cold Springs Road, Angwin, Napa County, on an unnamed tributary to Conn Creek. The intended use is for dust control during logging and vineyard development. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2003-5258-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Marc Mondavi.</p>	<b>NOD</b>	
2005059034	<p>Cline Subdivision Ventura, City of Ventura--Ventura</p> <p>Subdivision of one 0.76-acre parcel developed with one single-family residence into two parcels of 0.33 and 0.43 acres in size in conformance with the City Zoning Regulations for property located within the Single Family Residential, minimum 10,000 sf lot size (R-1-10) Zone.</p>	<b>NOD</b>	
2005059040	<p>License and Concession Agreement with Viacom Outdoor for the Establishment of a General Advertising Sign, Exclusive Negotiating Agreement Oakland, Port of Oakland--Alameda</p> <p>The Port of Oakland has authorized execution of a License and Concession Agreement for the establishment of an outdoor advertising sign, and has approved an Exclusive Negotiations Agreement with Viacom Outdoor. An approximately 20' high by 60' wide double-sided LED technology advertising sign will be located along Highway (I-80 in the Bay Bridge Toll Plaza vicinity). The specific location will be permitted later.</p>	<b>NOD</b>

<b><u>Documents Received on Monday, May 16, 2005</u></b>			
2005058142	Vista del Lago High School Relocatable Classrooms Moreno Valley Unified School District Moreno Valley--Riverside The Moreno Valley USD proposes to obtain and install 10 relocatable classrooms for use at the District's Vista del Lago High School. Vista del Lago High School has an existing capacity for 1,917 students. By adding 10 relocatable classrooms, the District will increase the capacity of Vista del Lago High School by approximately 270 students, representing an approximately 14% increase in student capacity.	NOE	
2005058143	Kinder Morgan Energy Partners Anomaly Pipeline Repair On Line Section 8 Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Martinez--Contra Costa KMEP proposes to excavate, inspect, and, if necessary repair areas of the 8-inch pipeline that transports petroleum products from Richmond to Concord, where anomalies were detected during regularly scheduled internal inspections. Proposed maintenance operation would include potholing over the existing pipeline at the location of each dig site and the excavation of an approximately 20-foot long by 10-foot long wide trench. The trench will be backfilled and the topsoil will be replaced and the area returned to the pre-excavation contours.	NOE	
2005058144	Colgan Creek Bank Stabilization Project Fish & Game #3 Santa Rosa--Sonoma Protect approximately 60 feet of eroding bank of Colgan Creek by placing rock rip-rap along the south bank of the stream at the southeast corner of the intersection of Kawana Springs Road and Frank Kafka Avenue. The eroded section of bank will be refilled, armored with rock up to approximately the 25-year flow level, and revegetated with native riparian trees and shrubs. Issuance of a Streambed Alteration Agreement Number 1600-2005-0034-3 pursuant to Fish and Game Code Section 1602.	NOE	
2005058145	Hughes Deck Replacement Fish & Game #3 Mill Valley--Marin Replacement of an existing deck structure over Old Mill Creek. The existing structure was constructed in 1957 and provides access and parking for two residences. The existing deck and its nine support piers are seriously degraded. The new structure will have less encroachment over the creek. Existing shotcrete and rip-rap in the stream channel will be removed and some rip-rap will be replaced under the new deck to protect the stream bank from erosion. Issuance of a Streambed Alteration Agreement Number 1600-2005-0107-3 pursuant to Fish and Game Code Section 1602.	NOE	
2005058146	Obexer's Marina Maintenance Dredging Fish & Game #2 --Placer Agreement No. 2005-0114-R2. Remove approximately 200 cubic yards of lakebed substrate to maintain operational level of boating marina.	NOE	
2005058147	Salmon Falls River Access Improvements Fish & Game #2 --El Dorado Creation of a low water staging area at the Salmon Falls River Access within the Folsom Lake SRA. The project will include construction of a 22-foot by 50-foot concrete ramp from the edge of the existing paved parking lot to a flat area below	NOE

2005058245	Vintage 1870 Event Area Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Napa--Napa Project entails installation of storm drain in unnamed drainage tributary to the Napa River for the purpose of providing drainage of new event area.	NOE	
2005058246	Inn at Morro Bay, Right of Entry and Waterline Installation Parks and Recreation, Department of --San Luis Obispo Issue a Right of Entry/Temporary Use Permit to the Inn at Morro Bay and their contractors to allow access to the existing water main within the boundaries of Morro Bay State Park for the purpose of installing a fire system sprinkler upgrade for the Inn Morro Bay. Install new underground eight-inch waterline to connect to an existing water main located on State Park property adjacent to Lower State Park Road. Equipment access will be authorized from Lower State Park Road adjacent to the project. Inn at Morro Bay will provide traffic flaggers as needed and safe pedestrian passage on nearby trail when construction is in progress. Work areas will be defined by orange fencing, or equivalent, as appropriate; DPR does not assume responsibility for security of materials or equipment left on site. Permit will be valid for six months (120 working days) from start of construction; Monday-Friday, 7:00 am - 5:00 pm. All ground-disturbing work will be monitored by a DPR-qualified archaeologist. If potentially significant resources are unearthed, work in the immediate area of the find will be temporarily halted or diverted until identification and proper treatment are determined and implemented.	NOE	
2005058247	Powell 1 Fence Installation Parks and Recreation, Department of --San Luis Obispo Install a wooden plank fence between Residence #1 and the campground at Morro Bay State Park. The fence will consist of a six-foot tall section extending for approximately 230 feet and a three-foot tall section extending for approximately 30 feet; approximately every 8 feet a 20-inch posthole will be dug for fence support. Fencing material will be consistent in color and shape with existing fencing at the nearby residence. Project protects park facilities, protects public health and safety and deters illegal activity. 	Riverside, Planning Department, City of Riverside--Riverside The project consists of constructing an underpass at Jurupa Avenue/UPRR at-grade crossing, as well as the permanent closure of the Mountain View Avenue/UPRR at-grade crossing to vehicle and pedestrian traffic.		
2004081189	East Los Angeles High School No. 2/Central Region Elementary School No. 19 Los Angeles Unified School District --Los Angeles LAUSD is proposing the construction of two new schools, East Los Angeles High School No. 2 and Central Region Elementary School No. 19. The proposed East Los Angeles High School No. 2 would accommodate 2,322 two-semester seats, and include 86 classrooms with a total building size of approximately 213,000 sf. A portion of the proposed high school site is currently occupied with the existing Hammel Street Elementary School and Hammel Early Education Center. Central Regional Elementary School No. 19 would replace both Hammel Street Elementary School and Hammel Early Education Center. The proposed elementary school would accommodate 1,176 two-semester seats, including 1,000 kindergarten through Grade 5 seats and 175 Early Childhood Education Center seats. The total number of classrooms would be approximately 51, including 44 kindergarten through Grade 5 classrooms and seven Early Education Center classrooms. The total building size would be approximately 92,000 sf.	<b>EIR</b>	06/30/2005
2004102053	Tiburon General Plan 2020 - General Plan Update Tiburon, City of Tiburon--Marin The project is a comprehensive update of the 1989 General Plan.	<b>EIR</b>	07/05/2005

2004021113	Nyes Place Siphon and Shaw's Cove Lift Station Upgrade Laguna Beach, City of Laguna Beach--Orange The City is proposing an upgrade to the Nyes Place siphon and Shaw's Cove lift station.	<b>FIN</b>	
2005052089	Rodoni Coastal Development / Conditional Use Permits for Restoration of the Lower Reaches of Rocky Creek (CDP-04-92/CUP-04-32) Humboldt County Community Development Services --Humboldt The project's primary purpose is to restore access for anadromous salmonids between Humboldt Bay and Rocky Gulch. In 2004, during Phase I of the project, an existing tidegate was replaced with a fish friendly "muted" tide gate to provide un-restricted access for anadromous salmonids between Humboldt Bay and Rocky Gulch. Phase II will restore aggraded channel reaches above the tidegate to provide access for anadromous salmonids to upper Rocky Gulch. A secondary purpose of the project is to enhance and expand estuarine and freshwater habitats in the lower most mile of Rocky Gulch. Achieving both of these project purposes will produce a net benefit to ecosystem functions and values in Rocky Gulch, and contribute to the recovery of three threatened fish species; coho salmon ( <i>Oncorhynchus kisutch</i> ), steelhead ( <i>O. mykiss</i> ), and tidewater goby ( <i>Eucylogobius</i>	<b>MND</b>	06/15/2005

	newberry) as well as a species of concern coastal cutthroat trout ( <i>O. clarki clarki</i> ), in Humboldt County. No new structures or other development is proposed. The parcels are currently vacant and used for livestock grazing.		
2005051099	Central Region High School No. 13 Los Angeles Unified School District Los Angeles, City of--Los Angeles Construction and operation of a new high school to relieve three existing overcrowded schools and to serve 2,295 two-semester seats. The proposed project involves approximately 215,000 square feet of development, including 85 classrooms, a multi-purpose room, gymnasium and locker rooms, library, cafeteria, and administration offices.	<b>NOP</b>	06/15/2005
2005021065	Conditional Use Permit Application No. C-05-024 Fresno, City of Fresno--Fresno Conditional Use Permit Application No. C05-024 requests authorization to construct chlorination facilities and install water well site improvements at Water Well Pump Station No. 329. The proposed pump station facility will pump groundwater as an Iron Manganese filtration system, a Granulated Activated Carbon (GAC) treatment system and/or an air stripping tower. The pump station facility will be constructed in three phases on southeast corner of North Armstron and East Michigan Avenues. The property is zoned R-1/EA/UGM, Single Family Residential/Expressway Area Overlay/Urban Growth Management.	<b>Neg</b>	06/15/2005
2005051100	The Orange County General Plan Technical Update 2005-01 (IP05-143) Orange County --Orange Technical amendment to the General Plan (2005-01). This Amendment is necessary to complete the third and final phase of the General Plan Modernization program initiated in 2000. Mostly, it includes modifications to goals or policies that are not a direct result of new legislative/regulatory mandates or prior action by the Board of Supervisors.	<b>Neg</b>	06/15/2005
2005052088	Shoreline Sailing Lake Water Supply Project (CIP 04-18) Mountain View, City of Mountain View--Santa Clara The City of Mountain View (City) proposes to modify and upgrade the infrastructure that delivers water from Inner Charleston Slough (ICS) to supply the Shoreline Sailing Lake (Lake) at Shoreline at Mountain View Regional Park. Project goals include providing a long-term reliable supply of water for the Lake; ensuring that operations and maintenance costs are predictable and controllable; and sustaining or improving water quality in the Lake. The proposed project would replace the existing pump station with a new facility of the same capacity and extend a new Lake Pipeline along the north side of the Lake. The Lake Pipeline would also provide for a new flushing operation that would allow water to be discharged from the Lake into ICS periodically to remove accumulated sediment. The existing pipeline would be capped and abandoned in place. The existing outlet facilities at the east end of the Lake would be modified slightly and remain in service to allow continued discharge from the Lake into Permanente Creek.	<b>Neg</b>	06/15/2005

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, May 17, 2005</u></b>			
	Hitachi GST's hazardous waste management activities are fully described in the Operation Plan (Part "A" and Part "B" Permit Applications), dated January 23, 2003, revised February 11, 2005. The facility was previously owned and operated by International Business Machines Corporation (IBM) in accordance with Hazardous Waste Facility Permits issued in April 1985 and December 1992. DTSC is also approving a Removal Action Workplace for a 10.49 acre portion of the Facility proposed to be sold to the City of San Jose. This portion of the Facility is identified as Parcel 0-6 and is located on the eastern side of the Facility. Based on samples collected on Parcel 0-6, DTSC has determined that corrective action is required for arsenic and asbestos. The Removal Action Workplan proposes removal of approximately 3,000 cubic yards of soil contaminated with arsenic and 2,500 cubic yards of fill material containing naturally occurring asbestos for off-site disposal. The amount of material will require 300 to 350 truckloads. The Removal Action will require approximately 6 weeks of field activities.		
2005041030	Acquisition of Property and the Construction Thereon of a New Elementary School Etiwanda School District Rancho Cucamonga--San Bernardino The acquisition of an approximately 10.2-acre property and the construction thereon of a new elementary school, consisting of classrooms, a media room, a multi-purpose building, administration facilities, play fields, hard courts, and parking facilities.	<b>NOD</b>

2005059039	EA39497 PM32083 / CZ6975 Riverside County Transportation & Land Management Agency --Riverside PM32083 proposes to subdivide 60.28 acres into 4 lots. CZ6975 proposes to change the zoning from R-A-20 to R-A-5, R-A-10 and R-5.	<b>NOD</b>	
2005058265	Line 1004 Vegetation Management of Arroyo Burro Creek Fish and Game Santa Barbara -- Removal and/or pruning vegetation 3 feet from both sides of a gas line. SAA# 1600-2004-0491	<b>NOE</b>	
2005058266	New Florence Griffith-Joyner Elementary School Removal Action Workplan Toxic Substances Control, School Property Evaluation and Cleanup Division San Diego--San Diego The Removal Action Workplan (RAW) specifies cleanup procedures to be implemented at the new Florence Griffith-Joyner Elementary School for excavation, removal, backfill, and off-site disposal of soils contaminated with lead. Excavation, sampling, and removal activities are expected to occur over a seven-day period.  Approximately 155 cy of contaminated soil will be excavated and hauled off-site from five localized areas. Based on the analytical results from the Preliminary Endangerment Assessment (PEA) investigation, lead levels ranged from non-detect to 812 parts per million. Results of the PEA further indicates that the excavation depths will not exceed 2 feet below ground surface (bgs) with most of the lead-impacted area being excavated to a depth of one-foot bgs. After the lead impacted soil is removed, confirmation soil samples will be collected to verify the specified cleanup goal [255 mg per kg] has been achieved. The DTSC uses 255 mg/kg as the screening number based on the DTSC Lead Spread Model and school site guidance documents.	<b>NOE</b>	
2005058268	Tahoe Yellow Cress Temporary Fence Enclosures - D.L. Bliss, Emerald Bay, Tahoe State Recreation Area Parks and Recreation, Department of --Placer, El Dorado Phase I: Conduct preconstruction field survey and resource inventory at D.L. Bliss State Park, Emerald Bay State Park, and Tahoe State Recreation Area and Tahoe State Recreation Units to identify archaeological resources requiring protection from ground disturbance activities. Survey will be conducted by or under the immediate supervision of a DPR-qualified archaeologist. Phase II: Annually construct seasonal temporary fencing to protect larger clusters of Tahoe Yellow Cress at D.L. Bliss, Emerald Bay, and Tahoe State Recreation Area State Parks. Install temperate fence enclosures in low water years after snowmelt. Fence posts will be green or dark color painted light duty metal T-posts between 3-4 feet tall after being placed in the ground. Depth will be approximately 1-2 feet. Fencing will be chicken or hog type wire attached to fence posts. A minimum of two signs will be installed on the enclosure for public education. Fences will be removed before winter when the plants have set seed. Project protects natural resources.	<b>NOE</b>

<b><u>Documents Received on Wednesday, May 18, 2005</u></b>			
2005051102	Bee Rock Quarry Expansion Project Santa Barbara County --Santa Barbara The applicant proposes to modify the operational limitations imposed by the Conditional Use Permit (87-CP-029 RV01) under which the facility currently operates and proposes to expand the area of mining allowed under the CUP and the current Reclamation Plan for the site. Annual production of limestone is proposed to increase from 175,000 tons per year to 300,000 tons per year. The excavation area is proposed to increase from 23 acres to 32 acres.	<b>NOP</b>	06/16/2005
2005051103	Carbon Canyon Specific Plan Repeal and General Plan Amendment Brea, City of Brea--Orange The project consists of the repeal of the adopted Carbon Canyon Specific Plan, a General Plan Amendment to change land use designations on properties in the CCSP area and zone changes to achieve consistency with the new proposed land use designations.	<b>NOP</b>	06/16/2005
2005051104	Olympic and Soto Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed mixed-use project includes 772 multi-family residences, 680,000 sf of retail/commercial space (including, but not limited to, retail, restaurant, and other non-retail commercial uses), 85,000 sf of office space, 3,541 parking spaces, and onsite open space/recreational amenities. The retail/commercial uses include the renovation of the existing Sears retail store and the relocation of the existing Sears Auto Center to a new location on the project site. The proposed project would revitalize an under-utilized, nearly abandoned site eliminating the blight and deterioration that is associated with the current conditions, by providing a pedestrian-friendly mixed-use development with a variety of new housing and retail opportunities for the community.	<b>NOP</b>	06/20/2005
2005051118	Cajon Redevelopment Project Area San Bernardino County --San Bernardino The proposed project entails the creation of a new project area and the adoption of the Redevelopment Plan for the Cajon Redevelopment Project Area in the unincorporated area of western County of San Bernardino in accordance with the standards of the California Community Redevelopment Law (CRL), Health and Safety Code Section 33000, et seq. The purpose of the Redevelopment Plan is to eliminate the conditions of physical and economic blight that exist in the Project Area through rehabilitation of existing buildings, revitalization and reuse of commercial and industrial land and development of vacant properties. The total Project Area encompasses approximately 2,484 acres and includes two noncontiguous subareas. The project conforms to the adopted County General Plan.	<b>NOP</b>	06/16/2005
2005021027	Douglas and Elayne Catey Monterey County Planning and Building Inspection --Monterey The proposed project includes the removal of a total of 26 protected Coast Live Oak trees (ranging from 6" to 13" in diameter) and 8 Monterey Pines, associated with the construction of a new 3,738 sf two-story single family dwelling with a footprint of approximately 2,836 sf. Four of the Oaks (ranging from 10" to 13" in	<b>Neg</b>	06/16/2005

<b><u>Documents Received on Wednesday, May 18, 2005</u></b>			
	diameter) are located within the Pebble Beach Company right of way and are counted toward the overall total tree removal for the project. These trees are within the proposed driveway alignment. Seven Oaks of less than 6" will also be removed, in addition 2 dead Monterey Pines will be removed. Grading for this project is less than 100 cubic yards.		
2005042044	Addition to Rappaport Residence and Appurtenant Structures San Mateo County Woodside--San Mateo Resource Management Permit, Architectural Review, and Grading Permit for addition to existing single-family residence and construction of five accessory structures, including 2,634 cy of grading and removal of 37 trees.	<b>Neg</b>	06/16/2005
2005051105	Winter Waterfowl Wetland Habitat Project Using Agricultural Drainage Water Tulare Lake Drainage District Corcoran--Kings Develop a 305 acre winter waterfowl habitat using low-selenium saline subsurface agricultural drainage water.	<b>Neg</b>	06/16/2005
2005051106	1568-1576 La Vista del Oceano Drive Santa Barbara, City of Santa Barbara--Santa Barbara The project consists of five inter-related applications located at the end of the lower portion of La Vista del Oceano Drive (which is currently unimproved), centrally located in that neighborhood. The affected project site totals approximately an acres and a half with the individual residential lots averaging approximately 13,700 sf. Four of the vacant lots are proposed for development with new residences and associated improvements: 1568 La Vista del Oceano Dr. (035-180-085); 1570 La Vista del Oceano Dr. (035-180-084); 1575 La Vista del Oceano Dr. (035-170-023, 022); and 1576 La Vista del Oceano Dr. (035-180-058). The upper three lots (1568, 1570, and 1576 La Vista del Oceano Dr.) would be accessed from a private driveway that comes off of La Vista del Oceano Drive. Each site proposes a single-family residence with two covered parking spaces (ranging from approximately 2,700 to 3,900 sf) and one uncovered guest space. Estimated grading for the homes and roadway would consist of approximately 3,427 cy of cut and 3,076 cy of fill outside the main building footprints and 1,543 cy of cut and 5 cy of fill within the building footprints. The proposal includes raising the La Vista del Oceano Drive road bed a maximum of 8 feet (where the unimproved roadway abuts this project) and completing the connection from Ricardo Avenue to the lower paved portion of La Vista del Oceano Drive. Due to topographical constraints, the raising of the road bed, and a shared driveway for the upper lots, numerous retaining walls (which vary in height) will be required for this project. These tallest retaining walls would be approximately 11 feet tall, although most would be less than 6 feet. Additionally, guard rails/fences will be required in certain areas for safety purposes. Overall construction time for the proposal would be approximately 14 months.	<b>Neg</b>	06/16/2005
2005052090	1801-1807 Bay Road East Palo Alto, City of East Palo Alto--San Mateo The project includes plans to renovate an existing 16,000 sf light industrial building on a one acre lot in a Redevelopment Area in East Palo Alto. There will be four sub-tenant spaces for automobile uses (tires, autobody & painting, repair). The Nicholson Company, the Master Leasee and project proponent, is requesting a	<b>Neg</b>	06/16/2005

2005051116	Embassy Suites at Westinghouse Place Santa Clarita, City of --Los Angeles This is an application for the development and operation of a 126,208 sf, four-story hotel, 50 feet in height. The hotel will have a total of 157 rooms, with 178 on site parking spaces provided on the 4.5 acre project site. A conditional use permit is required because the building exceeds 35 feet in height in the BP (Business Park) zone. A minor use permit is required for on site consumption and sales of alcohol for a restaurant proposed to be located within the hotel provided for guests of the hotel. All reference to the proposed hotel shall include the proposed restaurant within the hotel, accessory to the hotel.	<b>MND</b>	06/17/2005
2005052094	Tentative Tract Map 36-231, Use Permit 2005-03, "Storied Places" Mammoth Lakes, City of Mammoth Lakes--Mono Development of 22 fractional use (timeshare) condominium residential units and amenity building with caretaker's unit, together with new parking and landscape improvements. The 3.2 acre site will be accessed from Bridges Lane, currently providing access to the existing Bridges Condominium project and the Greyhawk single-family subdivision. The application also requests approval of specific on-site development standards in a Master Plan document. In particular, the Master Plan requests increases in height above the 35-foot standard in the Municipal Code for the Town of Mammoth Lakes, and a reduction in yard setback between the project site and the adjacent ski run on U.S. Forest Service (USFS) lands from 20 to 5 feet.	<b>MND</b>	06/17/2005
2002042112	76 Gas Station and Circle K Mini-Mart (DR00-11) El Dorado County Planning Department --El Dorado Proposed 2,976 square foot Circle K mini-mart building and a 76 Gas Station with six fueling stations (total of 12 fueling positions) under a proposed 4,000 square foot canopy.	<b>NOP</b>	06/17/2005

<b><u>Documents Received on Thursday, May 19, 2005</u></b>			
	Avenue; a new bridge over Forester Creek on the extension of Olive Lane; a bicycle path along the south bank of the new channel, and a bicyclist rest stop where the existing creek bows to the south; an extension of Mission Gorge Road bridge and widening of the channel underneath the bridge and downstream to the existing energy dissipation structure; and raised channel banks along both sides of the widened creek to prevent water overflows. Downstream of Mission Gorge Road Bridge, approximately the southern third of the existing concrete-lined channel would be acceptable channel slopes. In addition, sewer lines, a water main, San Diego Gas and Electric gas mains, and SBC Communications facilities will be relocated. The northern 2/3s of the existing concrete-lined channel and the existing splitter wall would remain in place. The channel would be widened to a total of 250 feet, and the widened channel bottom would be protected from erosion by installing open stabilization material. The existing energy dissipation structure would be widened to extend across the new channel. From Mission Gorge Road to Prospect Avenue, the widened channel will consist of an earthen and revegetated cross section except under bridges. Under Mission Gorge Road Bridge, the existing grouted rip rap would be replaced across the new widened bottom of the channel with a smooth concrete lining to protect existing shallow utilities. The SR 52 bridge to be constructed by Caltrans will have rip rap side slope protection and the channel bottom will remain earthen. The Olive Lane bridge will have open stabilization on the channel sides and bottom for scour protection of the bridge piers. Energy dissipation facilities will be constructed at the upstream end of the unlined channel to slow water entering from the concrete-lined portion of the channel originating in El Cajon. The project is located in Forester Creek from Prospect Avenue to north of Mission Gorge Road in the City of Santee, San Diego County.		
2003071175	Palomar Transfer Station Expansion Project EIR Carlsbad, City of Carlsbad--San Diego Expansion of the site to approximately 11 acres, modify the hours of operation to 24 hours per day, 7 days per week, with receipt of waste from commercial haulers from 5am to 8pm and public access from 7am to 4pm Monday through Friday and 7:30am to 4pm on Saturday and Sunday; modification of the existing facility structures so that the capacity of the transfer station increases from 800 tons per day to 2,250 tons per day, not to exceed 14,000 tons per week; allow used waste oil and filters at the recycling/buy back center from the public and City vehicles and increase traffic volume to 1937 Passenger Car Equivalents per day.	<b>NOD</b>	
2004122118	LaFortune Residence Grading Permit (EIAQ-3816) Placer County Planning Department --Placer Construction of a 4,454 sf, two-story, single-family dwelling with a detached 3-car garage with recreation/exercise room above (1,549 sf), a guesthouse (1,000 sf) with a covered deck (144 sf), and a two-car guest garage (576 sf). The project includes approximately 620 linear feet of driveway (and related retaining walls) that will provide access to the proposed residence and related accessory structures.	<b>NOD</b>

2005058257	Swamp Creek Fish Passage Improvement Project, Siskiyou County Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Siskiyou This project proposes to improve fish passage conditions at two culverts along Swamp Creek, located in a remote portion of Siskiyou County, California. This project proposes to reduce the sediment load, improve fish passage and improve the quality of instream and riparian fish habitat. The project goals include the following: stabilize the stream channel, reduce vertical erosion, improve fish passage and improve connectivity between isolated sections of intermittent stream corridor. Based upon data from field surveys, the project requires construction of a series of grade control structures (i.e. boulder weirs or cross vanes), and revegetation. The boulder weirs will be designed to redirect flow toward the center of the channel just below two culvert road crossings. Several weirs will be required to properly dissipate the energy below each culvert. The weirs will be used to step down the water surface to the existing grade downstream.  The project will benefit the McCloud River redband trout ("McCloud redband"; <i>oncorhynchus mykiss</i> ssp.) which is a unique subspecies of redband trout native to the Upper McCloud River drainage of Shasta County.  Swamp Creek is considered to be a key component of the designated redband trout refugium. In an effort to prevent Federal listing of the redband trout as a threatened species, State and Federal resource agencies in cooperation with private landowners have undertaken actions to address degradation of such refugium. Fish passage at road crossings is a major biological concern in several redband streams. Restoration of the fish passage capability at these sites is a high priority of Federal and State resource agencies.	<b>NOE</b>	
2005058258	Shasta Lake Boat Launching Facilities Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding Shasta Lake--Shasta The proposed project involves the repair of six existing boat-launching facilities at Shasta Lake, including Antlers, Bailey Cove, Centimudi, Hirz Bay, Jones Valley, and Packers Bay boat ramps. The goal of the project is to improve the safety of the boat ramps and reduce ongoing erosion. The work consists of installing signs,	<b>NOE</b>

2005058259	<p>repairing guide rails, installing riprap protection; adding sidewalk, and replacing damaged ramps.</p> <p>Edson Creek Restoration Project, Siskiyou County Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Siskiyou</p> <p>This project proposes to restore/enhance 600 feet of in-stream habitat, stream bank, and riparian habitat in Edson Creek, located in a remote portion of Siskiyou County. This project proposes to reduce the sediment load and improve the quality of instream and riparian fish habitats. The project goals include the following: stabilize the stream channel, reduce erosion, improve stream flow, deepen pools, diversify instream habitat, improve trout spawning habitat, stabilize eroding stream banks, improve fish passage, and improve connectivity between isolated sections of intermittent stream corridor. Based upon data from fields surveys, StreamWise will use a variety of techniques and structures to accomplish these goals, such as boulder weirs, boulder vanes, log placement, boulder placement, and revegetation. The upper reach is expected to be dry during construction of root wad debris jam in a 400' incised channel reach. Further downstream, a boulder weir will be improved to redirect flow toward the center of the channel just below a culvert road crossing. The lower project site addresses an erosion point along the left bank by installation of two rock vanes that direct flows away from the steep eroding bank. This lower site is perennial, but flow at 1-2 cfs during low-flow conditions.</p> <p>The project will benefit the McCloud River redband trout ("McCloud redband"; <i>oncorhynchus mykiss</i> ssp.) which is a unique subspecies of redband trout native to the Upper McCloud River drainage of Shasta County.</p> <p>Edson Creek is considered to be a key component of the designated redband trout refugium. 2005052104	Monte Vista High School Renovation San Ramon Valley Unified School District Danville--Contra Costa The project involves the renovation and expansion of the existing campus. No increase in student enrollment is associated with the project. After completion of the renovations, the campus would have approximately 97 classrooms and an area of approximately 216,555 sf. This is approximately 6,555 more sf than the current floor area of the campus.	<b>MND</b>	06/20/2005
2005051130	Road Extension 03-02 and Coastal Development Permit 03-17 (805 Mirimar Street) Laguna Beach, City of Laguna Beach--Orange The applicant is requesting approval of Road Extension 03-02 and Coastal Development Permit 03-17, to extend Alisos Avenue approximately 200 feet, from the intersection of La Mirada Street, with a new street, cul-de-sac and on-street parking for the creation of a new building site and ultimately a new single-family residence. The proposed project includes the cut of approximately 2,570 cubic yards of earth and the fill of approximately 2,568 cubic yards of earth. Drainage improvements are proposed within the general area of a "blue line" stream.	<b>NOP</b>	06/20/2005
2004101098	Church/Indianola Elementary School Site Acquisition and Development Project Sanger Unified School District Sanger--Fresno The project consists of the acquisition of an approximately 14-acre (12 net acre) elementary school site and the development and operation of an elementary school on the site. The proposed elementary school would be a full-service facility designed to accommodate 600 grade K-6 students on a traditional schedule.	<b>Neg</b>	06/20/2005
2005051120	TTM 17347 Adelanto, City of Adelanto--San Bernardino The applicant is proposing a tentative tract map to subdivide an approximately 20-acre site into 80 single family residential lots with a minimum lot size of 7,200 sf.	<b>Neg</b>	06/20/2005
2005051122	ENV-2005-1682-MND Los Angeles City Planning Department Los Angeles, City of--Los Angeles Parcel Map action to subdivide a 11,815 sf lot into two lots for the construction of two duplexes and a Zoning Administrator Adjustment to permit both lots to have a width of 42.5' in lieu of the required 50' in the R2-1, requiring the demolition of a single family house.	<b>Neg</b>	06/20/2005
2005051123	ENV-2005-1873-MND Los Angeles City Planning Department --Los Angeles Coastal Development Permit for construction in the Venice Coastal Zone and a Parcel Map action to subdivide a 5,792.9 sf lot for the construction of a duplex condominium in the RD1.5-1 zone, requiring the demolition of a single-family house.	<b>Neg</b>	06/20/2005

	portable classrooms will be relocated on the school site.		
2005052100	Jake Anderson - Major Subdivision - MJ0505C Del Norte County Planning Department Crescent City--Del Norte A Density Overlay rezone was previously adopted for this parcel which established a maximum density of the parcel at 12 lots (LCP Amendment 2-87 minor). The current proposes to divide the 4.42-acre parcel into 12 lots ranging in size from 0.27 acre to 0.38 acre. Public water and sewer would serve the new lots. A cul-de-sac would be constructed off of Humboldt Road that meets County Urban Road standards. The rear yard setback would serve as the agricultural buffer for the parcels located along the West and South property lines.	<b>Neg</b>	06/20/2005
2005052101	Aquaculture Terminal Project Humboldt Bay Harbor Eureka--Humboldt Establish an aquaculture terminal at the former location of the Louisiana-Pacific 30-MW wood-waste-fueled power plant. The project involves constructing a 60 ft. by 150 ft. metal building at the former wood-waste-fueled power plant site next to Humboldt Bay and using the existing dock that was associated with the power plant.	<b>Neg</b>	06/20/2005
2005052102	Stan Hogberg - General Plan Amendment (GPA0502C) and Rezone (R0504C) Del Norte County Planning Department Crescent City--Del Norte General Plan Amendment/Rezone of approx. 10 acres of land from a two acre minimum lot size to a one acre minimum lot size. The area requires on-site sewage disposal systems and private wells. The roads that serve the project area are private rural roads and maintained by property owners. If approved the applicant would propose to divide his 2 acre parcel into 2 parcels of 1 acre each. The project area is comprised of 7 lots which can only one other beside the applicant has split potential if the project is approved.	<b>Neg</b>	06/20/2005
2005052112	The Rivers Tentative Subdivision Map #4763 West Sacramento, City of West Sacramento--Yolo The applicant proposes to create a 7-lot subdivision and is requesting an amendment to PD-29 to allow residential development on the proposed lots. The total area is 37.5 acres; however, the total area of the seven lots is 1.29 acres.	<b>Neg</b>	06/21/2005

1995123032	UCSF LRDP Minor Amendment: Parnassus Housing and Childcare Implementation Plan University of California, Regents of the San Francisco--San Francisco The project site is at the corner of Irving Street and Third Avenue. The proposed project is 17,000 gsf in a four story building to provide 18 two bedroom units, as well as support spaces; laundry, bike storage, trash and maintenance rooms. No auto parking is provided with the project, as it is within walking distance of the Parnassus campus, and has excellent transit accessibility.	<b>NOD</b>	
1998091007	State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano Caltrans, Planning Palmdale--Los Angeles The project approved by the Department of Fish and Game involves the issuance of an incidental take permit (ITP) under the California Endangered Species Act (CESA). Issuance of the ITP authorizes take of Mohave ground squirrel ( <i>Spermophilus mohavensis</i> ), a State listed threatened species, in connection with the widening of State Route 138 from 146th to 165th Street East, and replacement of existing bridges at Big Rock Wash to a standard one span bridge with 4 lanes and a median. The ITP also covers other activities by Caltrans associated with construction of the project, including paving roadways, widening roadways one mile east and west of the bridge, grading and installation of related drainage facilities, and periodic grubbing of related roadway shoulders so that vegetation does not exceed three feet. In total, implementation of the project will result in impacts to 225.1 acres of potential habitat for the Mohave ground squirrel. The ITP includes measures to minimize and fully mitigate all impacts of the taking of Mohave ground squirrel, including the acquisition and preservation in pertuity of 225.1 acres of habitat for the species.	<b>NOD</b>	
2005011099	Music Building Project University of California, San Diego La Jolla--San Diego The proposed site for the facility is located in the University Center Campus Neighborhood. The exact site is bounded on the east by Russell Drive, the Gilman Parking Structure, and the Pepper Canyon Multi-Purpose Building, bounded on the west by the University Center Administrative Buildings, bounded on the north by Rupertus Drive, and bounded on the south by the Sixth College Provost Administration Complex.  The Music Building is designed to provide approximately 85,500 gsf. The program includes Faculty Offices/Studios, Instruction Spaces, Practice Rooms, Ensemble Rehearsal Spaces, Recital Hall (to support academic program needs), Administrative Support, and Research Laboratory Space.	<b>NOD</b>	
2005031091	Hillcrest Park Reservoir Reconstruction Fullerton, City of Fullerton--Orange The City of Fullerton is proposing to replace the existing, deteriorated Hillcrest Reservoir and associated piping. The project includes removing the existing reservoir, which was a 5 million gallon capacity and an oval-shaped footprint, and constructing a new circular shaped reservoir having the same capacity. The proposed reservoir will be constructed at the same location as the existing tank, at a similar elevation. The new reservoir tank will buried beneath the surface of the	<b>NOD</b>

	ground, and the area above it will be made accessible for public use. The project also includes construction of an 18" inlet-outlet pipeline and 18" drain line from the reservoir, through the park, south to Valley View Drive. Piping will also be installed within the Valley View right of way from Harbor Blvd. to Lemon Street. This will result in temporary road closures during construction.		
2005041084	Arvin Elementary School Arvin Union School District Arvin--Kern Construction of a kindergarten through 5th grade elementary school (54,344 sf) which includes classrooms, an administration building, library, athletic facilities and multi-purpose food service building.	<b>NOD</b>	
2005058248	Invitrogen Recreation Facilities - SP 180(G) / CUP 04-23 Carlsbad, City of Carlsbad--San Diego Specific Plan Amendment and Conditional Use Permit to allow ancillary recreational facilities within the Carlsbad Research Center Specific Plan area and to develop a multi-use recreational facility on Invitrogen property.	<b>NOE</b>	
2005058249	Bruce Street Bridge Scour Mitigation Fish & Game #2 Chico--Butte Agreement No. 2005-0109-R2. Install scour countermeasures to bridge footings.	<b>NOE</b>	
2005058250	Los Lagos Lake Maintenance Fish & Game #2 --Placer Agreement No. 2004-0433-R2. Maintenance removal of vegetation from bed of Lake Lagos.	<b>NOE</b>	
2005058251	Routine Maintenance and Channel Cleaning Operations Fish & Game #2 West Sacramento--Yolo Removal of accumulated silt from North Main Drain. Reclamation District No. 537 (RD 537) proposes to remove the accumulated silt with the use of dragline, which would be operated from the top of the berm. Aquatic vegetation growing in the interior of the Drain, such as tules and water primrose ( <i>Ludwigia peploides</i> ), would be removed as part of the project. All bank side vegetation such as willows and annual grasses, cattails ( <i>Typha</i> sp.), and tules ( <i>Scripus</i> sp., <i>Juncus</i> sp.) will be left in place and would not be affected by the project. The removed accumulated silt will be piled on the berms in the adjacent upland habitat, at a minimum of five to ten feet from the top of the bank.	<b>NOE</b>	
2005058252	Spillway and Lime Saddle Fish Cleaning Facility Replacement Boating and Waterways, Department of --Butte Replacement of two existing fish cleaning stations at Lake Oroville, one at Spillway and the other at Lime Saddle. The project footprint at each site is approximately 12 feet by 14 feet (168 sf) with an additional temporary impact of 50 sf for each site for staging.  Work would include, removal of existing structures, installation of new structures, utilities and minor grading to accomplish installation.	<b>NOE</b>

2004091020	<p>Cambria and San Simeon Acres Community Plans of the North Coast Area Plan ED04-503 (LRP2004-00024) San Luis Obispo County Planning Cambria--San Luis Obispo 500+ page document which includes a number of proposed text and mapping changes to the Cambria and San Simeon Acres portions of the existing North Coast Area Plan along with relevant background information to establish the setting based on updated information. No changes to the Rural Area standards, programs, or combining designations are proposed as part of this project. Also proposed are text changes to sections of the Cambria Design Plan and the Coastal Zone Land Use Ordinance.</p> <p>TEXT CHANGES: Addition of a new "Coastal Access" chapter; incorporation of modifications proposed by the Coastal Commission; addition of new goals for planning; complete update of census statistics, figures, land use acreage, and other data; reorganization of text to make it easier to read and more understandable; clarification and organization of goals, policies, programs, and standards.</p>	<b>EIR</b>	07/06/2005
2003091023	<p>B-19 Landfill Bioreactor Project; Kettleman Hills Facility Kings County --Kings The proposed project will consist of creating an anaerobic bioreactor within an existing municipal solid waste landfill located at the Kettleman Hills Facility and will require a new Conditional Use Permit from Kings County (Conditional Use Permit No. 03-06). The landfill, identified as B-19, was converted in November 1998 from a hazardous waste landfill to municipal solid waste landfill with a gross capacity of 4.4 million cubic yards. Liquids will be introduced into Class II / III waste in the proposed bioreactor cell to accelerate waste decomposition.</p> <p>In addition to the anaerobic bioreactor cell, the hours of waste acceptance are proposed to be changed to include Saturday from 8:00am to 6:00pm and the tonnage limit for landfill B-19 is proposed to be increased from 1,400 tons per day (tpd) to 2,000 tpd of municipal solid waste. Also proposed is the receipt of up to 800 tpd of liquids and high-moisture content waste to be utilized in the bioreactor. Class II/Class III soils and waste materials received for beneficial use will not be included in the requested tonnage limits.</p>	<b>FIN</b>

<b><u>Documents Received on Monday, May 23, 2005</u></b>			
2005054005	Alexander Village and Alexander Vista Estates Agua Caliente Band of Cahuilla Indians Palm Springs--Riverside 117 single-family residential units on 35.86 acres.	<b>JD</b>	06/21/2005
2005051131	General Plan Amendment 12, Zone Change Case 62, Map 165 (Brite Meadows, Inc.) Kern County Planning Department Tehachapi--Kern General Plan Amendment from 5.8 (1 dwelling unit per 20 acres) to 5.7 (1 du/5-acres), zone change from A (Exclusive Agriculture) to E(5) (Estate Residential/5-acre lot size) District. The project site is an undeveloped 56.99-acre parcel located south of SR 202, and northwest of the intersection of Banducci and Highline Roads. Surrounding parcels to the south and east are 2.5 acres in size or less, and the majority are developed with single-family residences. Parcels to the north and west are between 5 and 80 acres in size, and are largely undeveloped. The applicant proposes subdividing the project site into 10 5-acre parcels for development of single-family houses.	<b>MND</b>	06/21/2005
2005052110	Apanolio Creek Fish Passage Restoration Project, Barrier 3 San Mateo County Half Moon Bay--San Mateo The applicant is proposing to modify an existing in-stream barrier that inhibits the up-stream migration of steelhead fish. The barrier, a perched culvert, creates an obstruction to fish passage. Erosion beneath the 4' x 4' box culvert's opening has created an approximately six foot drop from the culvert invert to the stream channel bottom. The pool at the base of the culvert is generally less than 1.5 feet deep and the stream channel is sandy and prone to incising. The applicant is proposing to remove the culvert and replace it with a three-sided clear span bridge. The stream channel will be re-graded and a boulder step-pool sequence will be installed to provide year-round fish passage and grade control. Upon the completion of grading work, an extensive re-vegetation plan will be implemented. In order to construct the proposed improvements, the applicant will construct a coffer dam out of sandbags, with pipes to convey any stream flows around the work area.	<b>MND</b>	06/21/2005
2005052111	Odd Fellows Park Road Restoration Project Sonoma County --Sonoma The Sonoma County Department of Transportation and Public Works has received a grant from the National Oceanic and Atmospheric Administration, Restoration Center, and proposes to construct six new bridge piers and one new abutment at the temporary summer bridge crossing on Odd Fellows Park Road. The piers will enable the summer crossing to be installed by bridging the entire, or majority of, the flowing channel of the Russian River. The summer crossing is installed only during the summer months when the flow of the Russian River is low. The project goal is to improve fish habitat and water quality at the project site.	<b>MND</b>	06/21/2005
2005052106	District 3 Office Building Replacement, Marysville, California Caltrans #3 Marysville--Yuba The California Department of Transportation is seeking to replace their existing office building in downtown Marysville and construct a new office building on the same site along with a new off-site parking area.	<b>NOP</b>	06/21/2005

2005052107	Fox Hollow Santa Rosa, City of Santa Rosa--Sonoma Modify GP land use from Very Low Density Residential (maximum 2 units per acre) to Low Density Residential (2-8 units per acre) and rezone from RR-40 (Rural Residential) to R-1 (Single Family Residential).	<b>Neg</b>	06/21/2005
2005052109	Bill and Marie Wigley - Major Subdivision - MJ0504 Del Norte County Planning Department Crescent City--Del Norte Major Subdivision of two parcels with a combined acreage of 12.7 acres into 5 parcels. The project is a further division of lands previously divided by the applicant. The project also has an approved density of overlay that sets density on the project site to allow clustering of residences on the most useable lands. The parcels will be served by on-site sewage disposal and connections to a public water system. Access to the parcels is from an existing road off of Kings Valley Road. Road improvements are a condition of project approval. Due to the project site being located on a hillside, Hillside Development Standards apply.	<b>Neg</b>	06/21/2005
1996031014	Imperial County College Desert Museum, PM 2228 Imperial County OCOTILLO--IMPERIAL Interior construction of museum will consist of a main gallery, a side gallery, an auditorium for school and community groups, and photo displays. The building will also house an archaeological lab that will contain a permanent artifact storage room, storage room for the basket collection, library, art department, ADA compliance restrooms and offices for the museum and the Southeastern Information Center (future tenant).	<b>NOD</b>	
1996042027	Southeast Area Specific Plan American Canyon, City of AMERICAN CANYON--NAPA The Operator proposes to widen approximately 2500 feet of American Canyon Road from Floden to Highway 29 in the City of American Canyon, Napa County. The project will cross and run adjacent to American Canyon Creek and will impact sections of the creek. The project is composed of four main sections: the creek realignment, the retaining wall placement, the bridge widening, and the mitigation. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0736-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Robert Weil / City of American Canyon.	<b>NOD</b>	
1999062037	Los Alamos Hills Master Plan EIR (99-078) Murrieta, City of Murrieta--Riverside Whitewood Road is designated as a "Major" road, with four travel lanes, center median, bike lanes, sidewalks and landscaping within a 100-foot wide right-of-way. Whitewood Road connects Los Alamos Road and Clinton Keith Road, and provides a key access route to Vista Murrieta High School for a distance of approximately 2350 feet, Whitewood Road is partially constructed as a two-lane road with no sidewalks. The existing partial improvements include a 32 foot wide pavement section, rough grading for the full-width roadway section, and the installation of four drainage culverts. The proposed project includes precise grading of the as yet uncompleted roadway section and install culverts. The proposed project includes	<b>NOD</b>

	to Section 1602 of the Fish and Game Code to the project operator, Geoffrey H. Wood, Big Ranch II, LLC.		
2004059007	Japanese Language School Park Monterey County --Monterey Renovation of the existing 1,549 sf Japanese Language School Building designated as a Historical Building in the Monterey County General Plan.	<b>NOD</b>	
2004121089	Inverted Sewer Siphon Replacement Atascadero, City of Atascadero--San Luis Obispo An inverted sewer siphon crossing, owned and operated by the City of Atascadero, crossed under Atascadero Creek near Lewis Avenue but has become exposed due to erosion and downcutting within the creek channel. The City is concerned that further erosion may weaken the structural supports for the siphon and risk a pipeline failure that could result in untreated sewage entering the creek. The proposed project would be conducted in two phases. Phase 1 would involve constructing a new inverted sewer line. Approximately 450 feet of 8-inch and 16-inch diameter high density polyethylene (HDPE) pipe would be installed approximately 15 to 35 feet under the creek bed using directional drilling equipment. After the new pipelines have been installed and connected to the existing sewer system, the exposed portion of the existing inverted siphon would be removed from the creek using a crane and other equipment. The existing siphon line would be cleaned out and capped prior to removal. This project is necessary to prevent potential an accidental release of sewage into Atascadero Creek which could have serious environmental and health effects. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2004-0852-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Mr. Mark Marwort / City of Atascadero.	<b>NOD</b>	
2004122042	Alameda Theater, Cineplex and Parking Structure Project Alameda, City of Alameda--Alameda Property acquisition of the Alameda Theater to implement the currently proposed project to rehabilitate a key opportunity site in Downtown Alameda, including construction of a new multi-level parking structure with 350 spaces; rehabilitation of the existing, Art Deco style, Alameda Theater to create a restored, 500-seat cinema; and construction of an adjacent approximately 1,300-seat, seven to eight screen cineplex. The new parking and cineplex structures would also include approximately 3,500 sf of ground floor retail space.	<b>NOD</b>

	homes presently being constructed in the area. The purpose of the water storage tank will be to provide adequate fire flow for fire hydrants, provide adequate capacity to meet the established maximum day demand that would, for example, occur during the hottest summer day, and to provide adequate emergency capacity should electric power be interrupted. The current water storage and distribution system within the Antelope Pressure Zone does not have the capacity to meet those provisions for the new homes presently being constructed in the surrounding area.		
2005031062	TTM 16930 Adelanto, City of Adelanto--San Bernardino A proposal by Yogesh and Ranjan Goradia, consisting of a General Plan Amendment and Zone Change to change the land use/zoning designation from open space of R1 (Single Family Residential) and Tentative Tract Map No. 17152 to allow for the subdivision and development of 20.40 acres into 81 residential lots for detached, single-family residences in the R-1 zone with a minimum lot size of 7,200 sf.  The Scope of Work includes finish grading of the entire 20.40 acre site, construction of 81 dwelling units, construction of a drainage channel along Raccoon Avenue from the southern project boundary north to daylight on the north side of Chamberlaine Way, and construction of associated utilities (water, sewer, gas, electricity, telephones and cable). Additionally, the developer will construct two points of access by paving Raccoon Avenue from the tract boundary south to Bartlett Avenue and Bartlett Avenue east to Stevens Street, and pave Raccoon to full width, including sidewalks, from the project boundary north to Chamberlain Way.	<b>NOD</b>	
2005031158	San Jacinto Valley Regional Water Reclamation Facility Title 22 Tertiary Treatment Upgrade Eastern Municipal Water District San Jacinto--Riverside EMWD San Jacinto Valley Regional Water Reclamation Facility (SJVRWRF) collects and treats municipal sewage and produces recycled water for reuse. The SJVRWRF currently produces only secondary recycled water. Secondary recycled water can be used to irrigate fiber, and feed and seed crops not consumed directly by humans. A higher level of treatment, known as tertiary treatment, effectively removes bacteria, viruses, and virtually all suspended solids. At this level of treatment, recycled water can be used for any purpose except direct human consumption (drinking). The SJVRWRF service area is experiencing growth and based on current flow rate projections, the SJVRWRF's treatment capacity must be increased and the capability to produce tertiary recycled water added. To meet present and projected future tertiary treatment requirements, EMWD is proposing the addition of tertiary to produce an annual average of 14 million gallons per day of tertiary treated recycled water. Upon completion, the proposed project will accommodate planned growth within the SJVRWRF service area and improve the quality and increase the potential uses of the recycled water discharged from the plant.	<b>NOD</b>

2005041052	Mera Addition - DR 05-09 Lompoc, City of Lompoc--Santa Barbara Construction of an approximately 975 square-foot addition to an existing single-family dwelling.	<b>NOD</b>	
2005042049	Proposed Calistoga Middle School in Calistoga, Napa County, California Calistoga Joint Unified School District Calistoga--Napa The Calistoga USD has identified a need for a new middle school. The 16 +/- acre site, located within the City of Calistoga, is located at the northern portion of the City of Calistoga at the end of Money Lane. The site is bordered primarily by single family homes (northwest, south, east, and west), and Highway 29 northeast of the site. The site is designated as a potential school site in the Calistoga General Plan, in addition to being designated for residential. It is anticipated that this school will have an eventual student enrollment of 400. It is anticipated that the proposed school will open for the 2010-2011 school year with a population of about 250 students; then increase gradually to 400 students (year 2015). Direct beneficiaries include the students that will attend the proposed school, their families, and the community.	<b>NOD</b>	
2005042085	Daniel J. Savage Middle School Sylvan Union School District Modesto--Stanislaus The Sylvan Union School District proposes to construct a new middle school within the northeast part of the City of Modesto. The site is part of the Village One Specific Plan Area in which a school site has been identified. Student enrollment is projected to be approximately 1,200 with a staff of 89.	<b>NOD</b>	
2005042113	Coe Ranch Campground Combo Building Parks and Recreation, Department of Morgan Hill--Santa Clara - Remove six existing vault toilets (16 sf each); decommission vaults by pumping out vaults, break out concrete bottoms, fill w/gravel and cap w/clean soil; - Replace vault toilets with a new 440-sf ADA compliant 150 series unisex combination building within the general location of existing campsite #2 and within 400-feet of all the existing campsites. The exterior elevation will be board and bat wood siding and fire resistive simulated wood shingle type roof, compatible with the surrounding historical environment. The floor plan includes the three showers, three restrooms and a laundry sink; - Relocate campsite #1 between existing campsites #12 and #13; - Relocate campsite #2 approximately 50' feet Northwest of existing site; - Construct new (12' x 48') asphalt parking spur to access relocated campsite #2; - Install a new 5000 gallon septic holding tank, pump vault, force main and leach field; - Tie-in to existing water line to supply combo building; - Install new electrical power supply from existing electrical utility shed near the visitor center to the new combination building; - Modify campsites #3 and #20 to provide ADA compliant facilities including new accessible water faucet, furnishings, signage and minor grading for pathways to the new combo building.	<b>NOD</b>

2005058283	<p>CSUMB Building 59 Renovation California State University, Monterey Bay Seaside--Monterey</p> <p>The proposed project entails the renovation of an existing Fort Ord era building into an academic building for educational purposes. The project includes demolishing and reframing all interior walls, and installing new electrical, mechanical, HVAC, fire sprinklers, and fire alarm features. Existing windows will be removed and replaced with new exterior windows. The existing restrooms will be remodeled to provide ADA compliant facilities.</p> <p>Demolition will result in emissions of dust, which will vary day to day depending on the level of activity, the specific operations, and the prevailing weather. To reduce the potential impact of dust emissions, the campus will insure, through construction contract conditions, that the following recommended control measures are implemented as necessary.</p> <ul style="list-style-type: none"> <li>- Watering disturbed (graded or excavated) surfaces as necessary, increasing frequency when weather conditions require,</li> <li>- Covering all trucks hauling soil, sand, and other loose materials or requiring all trucks to maintain at least two feet freeboard,</li> <li>- Sweeping all paved access roads, parking areas and staging areas with water sweepers,</li> <li>- Sweeping streets with water sweepers if visible soil material is carried onto adjacent public streets,</li> <li>- Enclosing, covering, watering twice daily, or applying non-toxic soil binders to exposed stockpiles,</li> <li>- Installing sandbags or other erosion control measures to prevent silt runoff to public roadways.</li> </ul> <p>In addition, a Hazardous Materials report will be prepared by a hazardous material consultant and the applicant will be required to comply with the recommendations of the report as well as all local, state, and federal regulations.</p>	NOE	
2005058284	<p>Lake City / Humbug Fuelbreak - Malakoff Diggins State Historic Park Parks and Recreation, Department of --Nevada</p> <p>Construct a shaded fuelbreak along the North Bloomfield/Graniteville Road between the old historic site of Lake City and the town of North Bloomfield at Malakoff Diggins State Historic Park to establish a defensible fuelbreak. The fuelbreak will extend 300 feet north and 300 feet south of the North Bloomfield/Graniteville Road with a linear distance of approximately 3.0 miles, will encompass approximately 160 acres, and will remove approximately 90% of the undergrowth including brush and small diameter trees - (less than 10 inches diameter at breast height). Hand and mechanized labor will be used to remove undesirable brush species; small diameter overstocked and/or suppressed conifers. No commercial timber will be harvested. Material removed using hand labor with chain saws will be disposed of by chipping. Mechanized treatment of brush will result in mastication of the brush, which will be left on site to provide an effective ground cover. Minor ground disturbance will occur; however, all cultural resources, historic and prehistoric will be protected during the project. Project protects natural and cultural resources and public safety.</p>	NOE

<b><u>Documents Received on Tuesday, May 24, 2005</u></b>			
2005058327	<p>Eradication of South American Spongeplant in Shasta County, California Food and Agriculture, Department of Redding--Shasta</p> <p>The proposed project consists of a program to eradicate an infestation of South American spongeplant from a 4.5-acre pond near the Sacramento River in a housing development in Redding. South American spongeplant is an 'A' rated aquatic noxious weed that has the potential, if allowed to spread downstream from the current infestation, to clog waterways, block water control structures, and supplant native plants, degrading the native ecosystem and impacting the growth and reproduction of fish and wildlife resources.</p> <p>The principle eradication methods to be used in this project will be aquatic herbicides and hand removal. Hand removal would be used along the canal between the pond and the river. The aquatic herbicide glyphosate would be sprayed on spongeplants in the pond. Glyphosate herbicide is also rapidly absorbed in soil and sediment particles in the water column and the hydrosol; therefore there is low potential for glyphosate residues to move downstream and/or to leach into the groundwater. In addition, according to the glyphosate label, "There is no restriction on the use of treated water for irrigation, recreation or domestic purposes". All applications will be made according to label directions and under the supervision of a Qualified Applicator.</p> <p>In order to prevent any downstream movement of the aquatic herbicide, all applications will be made in the summer to actively growing plants, in accordance with label instructions, and after the snowmelt and large releases have ceased from Shasta Dam. In addition, a sandbag dam will be constructed in the canal to prevent movement of water to the river for three days after application. In order to confirm that downstream herbicide movement is not occurring, the CDFA will institute a water-monitoring program in the pond and the river.</p> <p>After site inspection and review of the California natural Diversity Data Base, it was determined that there is one state and federally listed endangered species in the project area, the winter run Chinook (King) Salmon. CDFA biologists will consult with the CDFA Environmental Officer, the National Oceanic and Atmospheric Administration-Fisheries, and the California Department of Fish and Game in order to insure that all aquatic herbicide applications are made after the winter run Chinook salmon has completed its spawning run up the river and that the species is otherwise not adversely affected by the project.</p>	NOE

2005058344	<p>Stabilize Parking Lot - Corner of Juan and Mason Sts (04-05-SD-32) Parks and Recreation, Department of --San Diego</p> <p>This project consists of the capping of an archaeological resource located at the corner of Juan and Mason Streets in Old Town San Diego State Historic Park. This site will be used by concessionaire Delaware North as a staging area for construction materials and vehicles. The treatment will be a 4" depth of 3/4 minus aggregate as a wear surface underlain by 6" of Class 2 AB. This section will serve as a base for the future paving of parking lot. The 3/4" minus rock wear surface will work its way into the AB as construction vehicles use this area but will keep the AB from being abrading with vehicle use. The treatment will consist of no underground activity.</p>	<b>NOE</b>

2005052119	Camp Parks Water Metering Project Dublin San Ramon Services District Dublin--Alameda The privatization of Camp Parks water system requires that Dublin San Ramon Services District integrate the water mains into the District's overall system. The complete integration of the water system will provide increased water service reliability between central and eastern Dublin as well as for Camp Parks. As part of this integration, the District proposes to install or replace service lines, water meters, and backflow preventers for approximately 90 buildings and irrigation system points within Camp Parks. The project will ensure overall public health and safety.	<b>MND</b>	06/23/2005
2005052123	Charter K-5 School Stockton Unified School District Stockton--San Joaquin The SUSD and Aspire are proposing to take several actions pertaining to the project site. For the purposes of this document, the following actions are considered to constitute the proposed project: - Acquisition (purchase) of the project site; and - Construction and operation of the school with a planned enrollment of 352 students.	<b>MND</b>	06/23/2005
2005052121	CWRS Transfer Station and Area Drainage Improvements Galt, City of Galt--Sacramento Construction and operation of a refuse and recyclable materials recovery and transfer station with a design capacity of 600 tons per day. The project also includes collection of the sites storm water runoff into an underground storm system which will replace the surface ditch that currently runs along the north property line.	<b>NOP</b>	06/23/2005
2003111036	Reconsideration of Conditional Use Permit Case No. 620 Santa Fe Springs, City of --Los Angeles The proposed project involves a request for a Reconsideration of Conditional Use Permit No. 206 to allow an increase in capacity for an existing refuse transfer station from 27 to 100 tons per day and an existing greenwaste facility from 200 to 500 tons per day. Related to the proposed greenwaste expansion is a request to conduct on-site chipping and grinding operations (for volume reduction).	<b>Neg</b>	06/23/2005
2004032084	Initial Study for Corte Madera Inn Parking Lot Expansion Corte Madera, City of Corte Madera--Marin The Reneson Hotel Group proposes to fill an existing pond adjacent to the Corte Madera Inn and Max's Restaurant for the construction of a 23-space parking area. While the pond has been part of the Corte Madera storm water management system, the Town's Flood Control Board determined it was no longer needed for storm water management in 1987 and again in 2004.	<b>Neg</b>	06/23/2005

2005051151	Otay Hills Project; P04-004, RP 04-001, ER 04-19-004 San Diego County Department of Planning and Land Use --San Diego The proposed project is a Major Use Permit and Reclamation Plan for the Otay Hills Project. The Major Use Permit project area consists of the excavation of construction aggregates and associated activities on 210 acres of a larger 550-acre ownership. Aggregate materials will be extracted in four phases over an approximate 50-year period, with a maximum cut slope height of approximately 305 feet. Anticipated production levels are 0.6 to 1.5 million tons per year and blasting will occur approximately once per week. The volume of excavation proposed is 50 million cubic yards at a maximum cut slope ratio of 1:1.	<b>NOP</b>	06/24/2005
2005051150	BP Carson Refinery Compliance and Safety Project South Coast Air Quality Management District Carson--Los Angeles BP proposes four modifications to its Carson Refinery: (1) to remedy past Notices of Violation (NOV) of SCAQMD Rule 402 and to avoid future odor complaints by replacing the existing Tank 710 with a new sour water storage tank that is designed to prevent releases of hydrogen sulfide and ammonia; (2) remedy an NOV issued for "failure to maintain equipment in good operating condition" by replacing several components of the No. 51 Vacuum Distillation Unit, including the vacuum distillation tower; (3) to comply with SCAQMD Rule 1173 by replacing No. 1 Crude Unit's existing pressure relief valves with a system that will control emissions to the atmosphere when excessive internal pressures build up in the unit; and (4) to comply with SCAQMD Rule 1173 by replacing all three pressure relief valves and routing the discharges to the South Area (Coker) Flare to control emissions to the atmosphere when excessive internal pressures build up in the equipment.	<b>Neg</b>	06/24/2005
2005051152	Site 23 K-2 South Disposal Area, China Lake Naval Air Weapons Station Toxic Substances Control, Department of --San Bernardino DTSC is proposing to approve a removal action work plan and Action Memorandum that would allow for the excavation and offsite disposal of waste materials buried in a trench at Site 23. Pesticides and explosives have been detected in the soil adjacent to the trench, and in waste material within the trench. Ground water has also been contaminated with pesticides and benzene. The purpose of the removal action is to remove a potential ecological risk should the contaminants migrate from the trench, and to remove a source of groundwater contamination. This is an interim action to remove the source of contamination. The action will include the collection of one-time grab groundwater samples from temporary wells to evaluate ground water contamination. Depending on the results of the groundwater sampling, further evaluation of the site may be conducted at a later date. The field activities associated with the removal action will take approximately two weeks.	<b>Neg</b>	06/24/2005

	designations of the site to RM and CC with a PD overlay. A CUP is required to implement the PD Overlay, to allow Application. A hillside review is required for development on slopes with an average cross slope of greater than 10%. The oak tree permit is required for the removal of 16 of the 87 oak trees on site and 3 oak tree encroachments. An adjustment is required to allow for 16-foot front yard setbacks, and 7 foot high property line sound walls facing public streets.		
2003102149	Wastewater Collection System No. 9 Stockton, City of Stockton--San Joaquin SEIR considering realignment of a portion of the original project from Pershing Avenue to Manchester Avenue. The environmental document evaluated the potential environmental effects that would result from approval, construction and operation of the Wastewater Collection System No. 9 (System 9) project with the proposed Manchester Avenue alignment. The purpose of the System 9 project is to provide City wastewater collection service to an approximately 2,900-acre service area in the northeastern portion of the Stockton Metropolitan Area. The service area is composed of Future Growth Areas (FGAs) designated by the Stockton General Plan for planned urban development. The proposed wastewater collection system consists of two pump stations, approximately 1.6 miles of gravity wastewater trunk line and 3.9 miles of wastewater force main. The project is consistent with the City's adopted Wastewater Collection System Master Plan. The proposed project is located generally east of the UPRR tracks, south of Hammer and Foppiano Lanes, west of the Central California Traction RR, and north of Alpine Avenue and the Stockton Diverting Canal.	<b>NOD</b>	
2004031047	Proposed Site Plan SP-04-005 Victorville, City of Victorville--San Bernardino The proposed project is the development of a total of approximately 5.4 acres of undeveloped land into an apartment complex. The project will result in impacts to Mohave Ground Squirrel ( <i>Spermophilus mohavensis</i> ), which are protected under the California Endangered Species Act, requiring issuance of a California Incidental Take Permit.	<b>NOD</b>	
2004051020	Fillmore Water Recycling Plant Fillmore, City of Fillmore--Ventura Development of a water recycling facility plant designed to meet the City of Fillmore's long-term wastewater treatment needs and water quality standards established by the Regional Water Quality Control Board - Los Angeles and California Department of Health Services.	<b>NOD</b>	
2004121010	Genomics Building, UCR #950445 University of California, Riverside Riverside--Riverside The building is located on the south side of the main campus at the intersection of Eucalyptus Drive and Citrus Drive. The east side of the building will be bound by a pedestrian walkway and the south end will abut the existing Entomology Building rear courtyard.	<b>NOD</b>	

The Genomics Building will be approximately 110,321 gsf within four stories in a two-wing "T" configuration with laboratories located on the west and south sides and offices on north and east sides. The building will be used to provide research

	laboratories to support the Genomics Institute, which will develop and disseminate new scientific and technical knowledge that will afford economic and social benefits to agriculture and the environment.		
2005021099	Former Sargent Industries Facility, Remedial Action Plan, Huntington Park, California Toxic Substances Control, Environmental Protection Agency Huntington Park--Los Angeles This project involves the continued remediation of soil and groundwater monitoring in accordance with the methods and procedures described in the draft Remedial Action Plan prepared by PES Environmental, Inc. (2004). Activities will include continued soil vapor extraction to remove volatile organic compounds (VOCs) from subsurface soils; continued groundwater monitoring of VOCs; recordation of deed restrictions; and implementation of an operation and maintenance program for the Area 8 cap.	<b>NOD</b>	
2005041058	Vanguard Preparatory Apple Valley Unified School District Apple Valley--San Bernardino The District proposes to construct a middle school for grades 6-7-8, on approximately 9 acres of land, located adjacent to an existing elementary school. The project will include approximately 24 relocatable classroom buildings, permanent restroom facility, gymnasium, playfields, and parking areas.  The project will provide educational facilities for up to 800 middle school students. Educational programs will be offered during the day, but occasional evening programs are anticipated. The beneficiaries of the project include the students, parents, and members of the community.	<b>NOD</b>	
2005041110	Platinum Performance Project Buellton, City of Buellton--Santa Barbara The applicant is requesting approval of Final Development Plan (05-FDP-01) for the construction of a 26,802 sf building consisting of a business that researches, develops, and distributes nutritional products for animal and human consumption.	<b>NOD</b>	
2005042028	Interstate 80 Washout Project Caltrans #3 --Placer Caltrans proposes to place RSP at PM 62.89 to 62.92 on I-80 near Cisco Grove to prevent embankment failure due to scour from the South Fork Yuba River.	<b>NOD</b>	
2005058345	Safe Routes to Schools Fifth Cycle Arcata, City of Arcata--Humboldt Project will benefit all residents and specifically school children by completing sidewalk infills in-between schools throughout the City. The project will also decrease vehicle speeds in front of the school areas through stripping/signage and traffic calming devices. There will also be a public outreach including the local school districts and a walk to school event once the project is completed. This project is consistent with the goals of the transportation and circulation elements of the City's 2020 General Plan.	<b>NOE</b>

2005058374	Portable Classroom Addition to Kinoshita Elementary Capistrano Unified School District San Juan Capistrano--Orange Addition of 4 portable classrooms to the school site.	<b>NOE</b>	
2005058375	Fort Bragg Waterfront Acquisition (Phase I) California State Coastal Conservancy Fort Bragg--Mendocino Authorization to disburse up to \$4,165,000 to City of Fort Bragg to acquire approximately 35 acres of Waterfront headlands on the Georgia-Pacific former mill site.	<b>NOE</b>	
2005058376	Catellus Urban Construction, Inc. Variance from Manifest Requirements Toxic Substances Control, Department of San Francisco--San Francisco DTSC proposes to issue a variance to Catellus Urban Construction, Inc. pursuant to California Health and Safety Code section 25143. The variance would waive hazardous waste manifesting requirements in Health and Safety Code section 25160 and California Code of Regulations, title 22, sections 66263.20 through 66263.23 to allow use of a Bill of Lading in lieu of a manifest to transport excavated soils along public roads within the Mission Bay project area in San Francisco (SF). Catellus intends to reuse excavated soils on-site for grading, backfill, or other development purposes, or to hold soils temporarily in a designated staging area for future use or offsite disposal in accordance with a SF Regional Water Control Board (Board) approved Risk Management Plan (RMP). The activities subject to this variance are the same as those covered under a pre-existing variance issued by DTSC, which covered the time period November 8, 2001 to January 8, 2005.  The soils subject to the proposed variance are contaminated with petroleum hydrocarbons below federal and state hazardous waste levels, but may be California-only (non-RCRA regulated) hazardous waste due to lead concentrations that exceed the 5 mg/L Soluble Threshold Limit Concentration (STLC) when analyzed by the California Waste Extraction Test ("WET") test, but do not exceed the Total Threshold Limit Concentration (TTLC) of 1000 mg/kg. The presence of petroleum hydrocarbons in these soils is associated with past land use.  The Mission Bay development is approximately 300 acres, located approximately one mile south of the financial district in downtown SF. The development consists of residential condominiums and a new University of California at San Francisco Research Campus.  The Board-approved RMP imposes requirements for the management of soils, including movement of soil along public roads from one area of Mission Bay to another within the designated Area of Contamination (AOC). The RMP was developed with the participation of DTSC and the SF Department of Public Health. The transportation of soils within the AOC allows Catellus to reuse soils for grading, backfill or other development purposes, or staging for future use or offsite disposal. Registered hazardous waste transporters will be used for all movement of hazardous wastes subject to this variance along public roads.  Approximately 10,000 to 15,000 cy of excavated soils are estimated to be subject to the provisions of this variance on an annual basis. During the term of the variance, the soils will be moved in several concentrated efforts over several week	<b>NOE</b>

2004061150	<p>Arboreta William Lyon Homes Development Glendora, City of Glendora--Los Angeles</p> <p>The project would consist of a specific plan involving 155 residential units (80 single-family detached units, 25 townhomes, and 50 duplex-style structures) and a sports park on 27.6 acres. The gross density of the proposed project is 5.6 dwelling units per acre. Primary access to the site would be provided via a gated entrance from Grand Avenue, and a secondary gated access would be provided from Bennett Avenue. Approximately 16 existing oak trees in the central portion of the site would be preserved in a 1.4-acre passive open space park for use by the community.</p>	EIR	07/11/2005
2005031118	<p>Life Sciences Replacement Building University of California, Los Angeles Los Angeles, City of--Los Angeles</p> <p>The proposed project involves the construction of a replacement laboratory building for the Life Sciences program of the College of Letters and Science on the UCLA campus. Work would involve demolition of the non-historic portion of Hershey Hall to create a site for construction of a 5-story (plus basement), replacement laboratory building at the corner of Manning Drive and Charles E. Young Drive East. The building would provide approx. 185,000 sf of laboratory and office space for the existing program including approx. 25,000 sf for new life sciences research initiatives. These new research initiatives could involve an addition of approx. 30 individuals to the campus population. Following completion of the Life Sciences Replacement Building, Hershey Hall would be renovated in compliance with the Secretary of the Interior's Standards for the Treatment of Historic Properties. The project is consistent with the land use and population estimates described in the 2002 Long Range Development Plan (LRDP) and analyzed in the 2002 LRDP EIR certified in 2003. Construction is anticipated to begin in 2006, with completion estimated by 2009-10.</p>	EIR	07/11/2005
2003071049	<p>Chase Knolls Los Angeles, City of Los Angeles, City of, Van Nuys--Los Angeles</p> <p>Site Plan Review, Vesting Tentative Parcel Map, and Cultural Heritage Commission Review (building permit review for Historic Property Contract Consistency) for the construction of 141 new residential units in 6 apartment buildings with underground parking, expand 11 existing units by adding bedrooms and bathrooms, and tenant amenities to include a pool and gym. Project will include the retention of existing carports and six laundry rooms along Huston Street. An estimated 26 carports will be demolished along the east-west service road. The six apartment structures would be constructed in space formerly occupied by carports and approximately 65 trees.</p>	FIN

<b><u>Documents Received on Friday, May 27, 2005</u></b>			
2004102067	<p>North San José Development Policies Update Project San Jose, City of San Jose--Santa Clara</p> <p>The City of San Jose is proposing to intensify development allowed within the Rincon de Los Esteros Redevelopment Area in the north part of the City. Rincon de los Esteros is an established industrial park area, with scattered enclaves of high and medium-high density residential, and a subarea that supports light and heavy industrial uses. The proposed intensification would encourage taller office/R&amp;D buildings along the established light rail transit (LRT) line on North First Street, and would add residential development both within a newly designated Industrial Core Area, and through expansion of the existing North San José residential areas. In support of these land use policy changes, the City also proposes to upgrade the transportation network in the area, and modify the transportation policies that currently restrict development.</p> <p>This EIR addresses the impacts of developing approx. 26.7 million sf of new Industrial/office/R&amp;D building space in the Rincon area beyond existing entitlements. Of this 26.7 million sf, 6.7 million represents full buildout of the project area under the existing FAR cap policy and 20 million sf would be the net amount of additional development potential created through the proposed changes to current City policies. This amount of total new development would allow for approx. 83,300 new employees. In addition, up to 32,000 new dwelling units would be allowed in Rincon at minimum densities of 20, 55, or 90 dwelling units per acre depending on their location. Of these 32,000 new units, 7,300 new residential units could be built on properties with existing residential General Plan designations and the remaining 24,700 new residential units could be built on properties within the housing overlay areas proposed by this project or in a mixed use configuration within the Industrial Core Area itself. This would allow a population increase of approx. 56,640 persons.</p>	<b>FIN</b>	
2005051161	<p>Sunrise Assisted Living of Fullerton Fullerton, City of Fullerton--Orange</p> <p>The proposed project entails construction of an assisted living facility that will provide care for seniors, including those with Alzheimer's disease and other memory impairments. The proposed assisted living facility will consist of 68 units within a two-story building. The proposed two-story facility, approximately 45,896 sf in size, will be 30 feet in height.</p>	<b>MND</b>	06/27/2005
2005051158	<p>Conifer Tank Replacement Project Triunfo Sanitation District Ventura--Ventura</p> <p>Triunfo Sanitation District (TSD) proposes to construct and operate a single 2.1 MG tank at the proposed Doubletree Road site. The existing 1.0 MG tank located at the western terminus of Confer Street will be demolished. Additionally, 4,800 feet of pipeline will be constructed, or existing pipeline will be reused. Proposed road improvements from Doubletree Road to the tank include widening the existing 6-10 feet wide gravel access road/trail to a paved 12-feet wide road. Because access to the Doubletree Road into the project design.</p>	<b>NOP</b>	06/27/2005

	South during the permitting process for a proposed site located approximately 0.75 miles south at 3357 Petaluma Boulevard South. The portable asphalt plant consists of a main hopper, several feeder hoppers, diesel and oil storage tanks that are integral with the main facility. There would also be a portable control house and office. The operations at this temporary location, will remain unchanged from that which has occurred for the past 20 years on the opposite side of Petaluma Boulevard South at the existing Petaluma Quarry site. The temporary relocation is necessary to fulfill contractual obligations. The temporary Use Permit is for a period not to exceed 3 years.		
2005052130	CUP 2004-0020 Yuba County --Yuba The project allows the addition of 3 new RV sites and one new Mobile Home Site. The Mobile Home is to house an employee. The project site, in a Recreation Zone, is located to the south of the existing Children's Recreation Camp. The Camp currently has 88 full RV hookups, restaurant, and lodge. There are 10 existing cabins, which house 10 children/counselors in each. Two dual compartment septic tanks with pumps to existing system are proposed to the new site.	<b>Neg</b>	06/27/2005
2005052131	PA-0500222 (SA) Pyle, Michael San Joaquin County Stockton--San Joaquin Site Approval application to expand an existing RV and boat storage facility from 2 acres to 3.17 acres to include 10,400 square feet of personal storage, and a 2,400 square foot, 2-story building to include an office and caretaker residence.	<b>Neg</b>	06/27/2005
2005052132	Pine Hollow Estates Residential Subdivision Clayton, City of Clayton--Contra Costa The project involves subdivision of two parcels into eight lots for single family residences, plus a project entrance road. The current General Plan Land Use designation for the site is Low Density Single-Family Residential.	<b>Neg</b>	06/27/2005
2005052133	Agilent Building 91 ISO Bulk Ammonia Project San Jose, City of San Jose--Santa Clara Planned Development Permit Amendment to construct 7,885 square foot expansion of existing ammonia gas vault and minor site improvements for industrial uses on an 88.73 gross acre site.	<b>Neg</b>	06/27/2005
2005052134	Union Avenue/Los Gatos-Almaden Road Pedestrian Improvements San Jose, City of San Jose--Santa Clara Construct of pedestrian improvements (i.e., sidewalks) in the northeast quadrant of the intersection of Union Avenue and Los Gatos-Almaden Road. The proposed project will extend from the southeast corner of the intersection of Heather Drive and Union Avenue to approximately 195 feet east of the intersection of Union Avenue and Los Gatos-Almaden Road. The We and Our Neighbors Club House, located in the northeast quadrant of the intersection, is listed on the National Register of Historic Places. The proposed project has been designed to minimize adverse effects on the historic integrity of the We and Our Neighbors Club House and its setting.	<b>Neg</b>	06/27/2005

	evaluating the overall environmental impacts of the project. The draft EIR assumes that residential development will occur on the remaining land along Broad Street at some point in the future.		
	Tumbling Waters: This portion of the development would include 175 for-sale residential units on 11.63 acres, split by the Sacramento Drive right-of-way. The net site area (which excludes creeks and right-of-way) is 7.5 acres. Three different residential product types are proposed including duplex, triplex and detached units. Project amenities would include bikeways throughout the site, creek enhancement, a community garden, a meditation/garden walk area, a tot lot/family area and a seasonal sand volleyball court.		
	Creekston: This portion of the project area would include a total of 86 residential units and approximately 10,000 sf of commercial floor area. A 2,700 sf day care facility is also proposed. The project site has a gross area of 5.3 acres, and a net site area of 3.6 acres. Four unit types are proposed, including mixed-use apartments and "hoffices" (home/depot), courtyard homes, zero lot-line homes, and flats. Amenities of the Creekston proposal include careful attention to the space between buildings to provide opportunities for interaction among residents, and the combination of residential and commercial uses on the site. A transit facility with a public art component is proposed along Orcutt Road. Creek enhancements are also proposed.		
2002014003	Quechan Casino Project Quechan Indian Tribe --Imperial The proposed project is a casino and hotel complex on tribal trust land in Imperial County near the California-Arizona-Mexico border. The casino and hotel complex would also include food venues, an events center, and a 1,500-space parking lot.	FIN

**Documents Received on Tuesday, May 31, 2005**

along this 1,300 ft. reach, remove non-native vegetation, widen the channel, and replant with native species in a plant community type complex identical to the lower restoration effort."

This paragraph will be replaced by the following:

"Removal of Pump Station at Convalescent Home

The pump station and culvert along San Pedro creek at the Convalescent Hospital will be removed and the Convalescent Hospital's sewage drain system will be connected to the City's main wastewater system for the Linda Mar area. At this area, the creek has a steep bank (less than 2:1). This grade will be laid back to a minimum 2:1 grade to stabilize the creek after pump station is removed. The total extent of creekbank to be regraded would be about 300 feet long by about 40 feet wide. After the creekbank is regraded, it will be planted with a plant mosaic of appropriate plant species native to the creek as listed in page 11-5 of the Initial Study.

The existing 48-inch storm sewage outfall pipe that goes to the pump station currently drains directly into the creek. This sewage pipe drains the drainage shed area, area roadways and the Convalescent Hospital parking lot. From the Convalescent Hospital, this existing sewer line will be redirected to the west along the new top of bank to an existing sewer main tie-in west of the hospital and across the creek. The new line will cross the creek.

There are big stands of existing willows in this area which would be saved as an island, and a new overflow channel would be excavated between this island and the northern edge of the Convalescent Hospital property. This overflow channel will tie directly into the existing flood control channel just downstream (west) of the Convalescent Hospital property. The project will avoid affecting waters below the ordinary high water (OHW) mark with the exception of the removal of the storm drain. Storm drain removal will occur when the creek has receded enough for this area to be dry. The City is in the process of obtaining an easement from the property owner in exchange for fixing the sewer pump overflow problem. Approximately 1000 cy of dirt will be removed to lay back the creek (excavation). This dirt will be used in completing Phase 1 of the project.

The appropriate plant species for this portion of creek and creekbank will be chosen from the seven plant community types as listed on page 11-5 of the Initial Study. These include: (1) Palustrine scrub-shrub community along the riparian corridor, dominated primarily by Arroyo and Sitka willows (*Salix lasiolepis* and *S. sitchensis*, respectively), with Red alder (*Alnus rubra*) also present; (2) Palustrine scrub shrub found primarily along the stream terraces, dominated primarily by Arroyo willow; (3) Palustrine scrub shrub community type planted along the steeper side slopes, dominated primarily by Arroyo and Sitka willows; (4) Palustrine forest along the riparian corridor, dominated by Red alder and Yellow willow (*S. lucida* subsp. *lasiandra*); (5) Palustrine forest dominated only by Red alder; (6) Palustrine emergent (persistent) planted along the creek margin, dominated by rushes and sedge (e.g., *Scirpus microcarpus*); and (7) Palustrine emergent (persistent along the slopes dominated by rushes (e.g., *Juncus patens*) that tolerate relatively drier site conditions."

2003081053	<p>Ellis Avenue Pump Station Replacement Project (Job No. I-10) Orange County Sanitation District Fountain Valley, Huntington Beach--Orange</p> <p>The project would abandon the existing Ellis Avenue Station located underneath the street at the intersection of Ellis Avenue and Bushard Street, construct a new below-ground pump station and above-ground electrical and screening building on the OCSD's facility. The project would also involve construction of associated diversion and sewer improvements in both the cities of Fountain Valley and Huntington Beach.</p>	<b>NOD</b>	
2003082103	<p>Palo Alto/Stanford University Development Agreement and Lease DEIR Palo Alto, City of Palo Alto--Santa Clara</p> <p>The project includes the development of a 6 acre community playing field and public park, the construction of at least 250 new housing units including at least 50 units of BMR housing, demolition and relocation of 300,000 sf of existing research and development/office space anywhere in the Stanford Research Park.</p>	<b>NOD</b>	
2004031076	<p>Secondary Treatment and Plant Improvement Project Orange County Sanitation District Fountain Valley, Huntington Beach--Orange</p> <p>The proposed project would provide for upgrades at existing wastewater treatment facilities in Fountain Valley and Huntington Beach to meet secondary treatment standards for flow conditions projected through 2020. The work would include rehabilitation of existing facilities and the addition of new facilities within the existing treatment plant boundaries.</p>	<b>NOD</b>	
2004032067	<p>Cold Springs Vineyard Timberland Conversion Forestry and Fire Protection, Department of --Napa</p> <p>Conversion to vineyard of approximately 23.12 (gross) acres of gently to steeply sloping Mixed Evergreen Forest (slopes typically 5 to 30%, average 12%).</p>	<b>NOD</b>	
2004072033	<p>Novato Sanitary District Wastewater Facility Plan Project Novato Sanitary District Novato--Marin</p> <p>The Novato Sanitary District (District) proposes improvements to their wastewater treatment plant facilities. Historically, the District has successfully managed its wastewater treatment plants in a fiscally conservative manner, allowing the District to extract maximum use out of its treatment facilities while keeping its wastewater rates among the lowest in the Bay Area. As a result, all of the treatment facilities are at least 20 years old, with the majority of facilities being 30 to 50 years old. The facilities are at the end of their life cycle, as demonstrated by increasing operational and compliance issues at the District. Additionally, the District must prepare for anticipated significant changes in regulatory requirements, and for a small increase in influent flow due to potential conversion of existing septic tanks to sewer connections and infill development identified in the City of Novato General Plan. This results in a need for expanded and improved treatment capabilities and process reliability. The proposed improvements to the District facilities would increase current permitted capacity from 6.55 to 7.0 million gallons per day using the following preferred alternative.</p>	<b>NOD</b>	

Novato Consolidated WWTP Alternative: Under this alternative, improvements would be made at the Novato WWTP to consolidate treatment processes at this

	<p>facility. The Ignacio WWTP would be converted to a pumping facility with flows into the Ignacio facility pumped to the Novato WWTP via a new force main approximately 24 inches in diameter installed primarily along Rowland Boulevard (approximately 12,700 total linear feet). The Novato Consolidated WWTP Alternative would include the following Force Main Alignment Segments:</p> <p>Force Main Alignment Segment C: The route of Segment C generally extends northwesterly from the Ignacio WWTP, crossing under SR-37, to Hanna Ranch Road. The total length of Alignment Segment C is approximately 1,100 feet.</p> <p>Force Main Alignment Segment E: Segment E would extend from Hanna Ranch Road to a point just north of the terminus of Rowland Boulevard. Segment E generally proceeds west across the NWPRR track from Hanna Ranch Road and through an undeveloped area in a southwesterly direction, then it proceeds northeasterly along an undeveloped roadway. The alignment then enters Rowland Boulevard at its junction with Vintage Way, and proceeds northwesterly along Rowland Boulevard between the NWPRR right-of-way and the Vintage Oaks Shopping Center. The alignment then follows Rowland Way through the Rowland Plaza retail-commercial and the Golden Gate Business Park. The alignment crosses under Novato Creek along Rowland Way where it then turns east-northeast just south of the Sutter Health Community Hospital. The alignment then turns northwesterly along the eastern property line of the hospital and a disused portion of Franklin Avenue to intersect with the existing inflow conveyance line to the Novato WWTP. The total length of Alignment Segment E is about 8,250 feet.</p>		
2004091094	<p>USA Gas Santa Maria, City of Santa Maria--Santa Barbara Gas station with a mini-mart and car wash.</p>	<b>NOD</b>	
2004091119	<p>Carbon Canyon Dam Sewer Pipeline Project Orange County Sanitation District Brea--Orange The project would construct a new 5,145-foot gravity flow sewer pipeline in the City of Brea. The 30-inch pipeline would begin at the existing Carbon Canyon Pump Station in Carbon Canyon Regional Park and would tie into the existing Carbon Canyon Interceptor at the intersection of Rose and Vesuvius Drive. A pipe size up to 36-inches may be required to accommodate flows, but would not increase capacity. It is anticipated that construction would start early 2006 and would likely extend to the early part of 2007. The project includes the Expanded Service Area Option, which would serve approximately 3,675 acres of unincorporated Los Angeles County and the City of Chino Hills in San Bernardino County that are adjacent to and naturally drain into the Orange County Sanitation District's service area through the City of Brea.</p>	<b>NOD</b>

Approximately 50 cy of sediment will be removed along approximately 200 feet of channelized stream. Issuance of a Streambed Alteration Agreement Number 1600-2005-0043-3 is pursuant to Fish and Game Code Section 1602.</p>	<b>NOE</b>	
2005058404	<p>Pond Embankment and Spillway Repairs Fish &amp; Game #3 Novato--Marin</p> <p>The operator proposes to repair the embankments and spillways of four existing onstream ponds on Arroyo San Jose at the Marin County Club golf course. The repairs will consist of removing embankment fill material and old concrete spillways and reconstructing the embankments with compacted, engineered fill, and reconstructing the spillways in-kind. At each site, pedestrian bridges and existing flashboard dams may also be reconstructed in-kind. Issuance of a Streambed Alteration Agreement Number 1600-2005-0079-3 is pursuant to Fish and Game Code Section 1602.</p>	<b>NOE</b>

<b><u>Documents Received on Tuesday, May 31, 2005</u></b>			
2005058405	Redwood Creek Railroad Bridge Deck Replacement Fish & Game #3 Redwood City--San Mateo The operator proposes to repair a two-span railroad bridge across a channelized portion of Redwood Creek. The repair consists of attending to cracks and disintegration of concrete abutments and a pier. A temporary sand cofferdam with smooth flexible pipe will be installed to divert water from the work area under the bridge. Issuance of a Streambed Alteration Agreement Number 1600-2005-0058-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2005058406	Michaelson Trench Fish & Game #3 --Lake The project involves the excavation of a 600-foot trench across Middle Creek to access well water for a home site at 14302 Elk Mountain Road (APN # 002-023-36). The site will be access from Elk Mountain Road north of Upper Lake in Lake County. Middle Creek is a seasonal Creek which flows subsurface during the summer months. The site is aggraded and lacks adequate riparian vegetation. DFG is issuing Streambed Alteration Agreement Number 1600-2005-0072-3 pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2005058407	Mathias Baker's Creek Bridge B Fish & Game #3 --Mendocino The project involves the installation of a bridge with abutments across Baker's Creek, tributary to the Russian River. The site is located at 9450 Laughlin Way in Redwood Valley, Mendocino County. Issuance of a Streambed Alteration Agreement Number 1600-2005-0186-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2005058408	Mathias Baker's Creek Bridge A Fish & Game #3 --Mendocino The project involves the installation of a bridge with abutments across Baker's Creek, tributary to the Russian River. The site is located at 9450 Laughlin Way in Redwood Valley, Mendocino County. Issuance of a Streambed Alteration Agreement Number 1600-2005-0047-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2005058409	Tahoe Swiss Village Shoreline Revetment Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer Install boulders and dynamic revetment to address shoreline erosion.	<b>NOE</b>	
2005058410	PUD 90-12(A) - Ermoian Addition Carlsbad, City of Carlsbad--San Diego Administrative Amendment to a Planned Development Permit.	<b>NOE</b>	
2005058411	Portable Class Room Addition-Blythe/Wooden Campus Los Angeles Unified School District --Los Angeles The project would add four classrooms in two portable buildings to provide space for 100 students to relieve overcrowding at other campuses.	<b>NOE</b>	

## CEQA Daily Log

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, May 31, 2005</u></b>			
2005058412	Hertz Local Edition Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a rental car company known as "Hertz Local Edition" in the LC zone on a 0.66 +/- acre site. The rental car company will occupy approximately 1131 sf of leased space within an existing 3,600 sf building.	<b>NOE</b>	
2005058413	Velasco Accessory Dwelling Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a residential accessory dwelling on a 5-acre parcel zoned A-5.	<b>NOE</b>	
2005058414	AT&T Wireless Telecommunications Facility (Scott and Latrobe) Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow collocation of a cellular telecommunications facility on an existing 102-foot high monopole in the A-2 (PD) zone. The facility will consist of 12 panel type antennas mounted at 58 feet, and a microwave dish at 50-feet. In addition, three small radio cabinets will be placed at the base of the monopole.	<b>NOE</b>	
2005058415	Tyler Island Bridge Road (Storage Building) Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to exceed the building area limitation of 1,000 sf for a proposed incidental agricultural storage building in the RD-2 (F) zone. The proposed building is approximately 2,035 sf in size.	<b>NOE</b>	
2005058416	Marshall Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a residential accessory dwelling on a five acre parcel zoned A-5. Note: The existing 1,200 sf home will be designated as the accessory dwelling after a larger residence is constructed.	<b>NOE</b>	
2005058417	Jestes Remodel Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a 1200 +/- sf residential accessory dwelling unit in the RD-4 zone.	<b>NOE</b>	
2005058418	Verizon Wireless Telecommunications Facility Use Permit Sacramento County Dept. of Environmental Review Sacramento--Sacramento The proposed project consists of a Use Permit to allow the collocation of a wireless telecommunications facility on an existing 75-foot high mono-pine cellular tower in the GC zone. The facility will consist of 12 panel type antennas mounted at 58 feet, and the placement of an equipment shelter at the base of the tower.	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 05/16/2005 - 05/31/2005

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, May 31, 2005</u></b>			
2005058419	Thomas Residential Accessory Dwelling Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a residential accessory dwelling on a 1.97 +/- acre parcel zoned AG-20 (F).	<b>NOE</b>	
2005058420	Wood "In-Law" Quarters Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a 1,124 +/- sf accessory dwelling unit in the RD-2 and RD-2 (NS) zones. Note: The proposed accessory dwelling will be located outside the 100 year floodplain/Natural Streams zone.	<b>NOE</b>	
2005058421	Fuel Tank Replacement at Ancil Hoffman & Cherry Island Gold Course and Gibson Ranch Park Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of one 1,000 gallon gas underground storage tank (UST) that will be removed at Ancil Hoffman and replaced with one 500 gallon gas above ground storage tank (AST); one 1,000 gallon gas UST, one 500 gallon diesel UST, and one 500 gallon oil waste UST at Cherry Island that will be removed and 1,000 gallon diesel UST at Gibson Ranch that will be removed and replaced with one 500 gallon split AST (250 gallon gas/250 gallon diesel). The underground storage tanks and monitoring systems at the subject sites are either out of compliance or will be as of the end of this year. The yearly monitoring costs continue to increase for USTs and are considerably greater than those for ASTs. This is a maintenance project to reduce the yearly permitting costs, meet current equipment and monitoring regulations, and avoid future contamination of the surrounding soil. Replacing the existing USTs with ASTs will bring the fueling and monitoring equipment into compliance. The ASTs are self-contained and have the monitoring and pumping mechanisms directly attached to the tanks.  The new ASTS are located in slightly different locations than the existing ones, allowing later UST removal and avoiding the problem of not having fuel available during construction. All sites within existing corporation yards and no environmentally sensitive areas are nearby.	<b>NOE</b>	
2005058422	Laguna Village Phase 3 Water Line Abandonment Sacramento County Dept. of Environmental Review Elk Grove--Sacramento The proposed project consists of the abandonment of an existing easement, for the purpose of relocating the easement elsewhere on the project site.	<b>NOE</b>	
2005058423	Chinese Immanuel Church Development Plan Review Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Development Plan Review, pursuant to Section 530-23 of the Cordova Industrial Uses Neighborhood Preservation Area, for a 10,323 +/- sf church on a 2.9 +/- acre parcel in the M-1 and M-1 (NPA) zones. Note: Churches are a permitted use in the M-1 zone.	<b>NOE</b>

with the look of Old Town's interpretive period (1821-1872). There will be no below ground disturbance. All barrels supporting the canopies will be placed on load bearing surface protectors.

2005058504	Pacheco Feral Pig Control Program Parks and Recreation, Department of --Santa Clara	NOE	
------------	---	-----	--

Implement a Feral Pig Control Program at Pacheco State Park, in accordance with a Memorandum of Understanding with the California Department of Fish & Game (including daily trap inspections and monthly reports). Non-native feral pigs, that wallow and root in riparian areas and are otherwise destructive and compete with native wildlife, will be trapped using humane multiple-panel traps and dispatched with lead-free bullets. Carcasses will not be buried in the park and ground disturbance will be avoided or minimized. The on-going program will have net benefits for wildlife, native plants, cultural resources, and the visitor experience.

2005058505	Trellis Removal at Mexican Commercial Corner (04/05-SD-34) Parks and Recreation, Department of --San Diego	NOE	
------------	--	-----	--

This project consists of the removal of three non-historic wooden awning/roof structures within the Plaza del Pasado concession located in Old Town San Diego State Historic Park. Trellises/awnings are being removed for tenting of structure for purpose of termite control. Compliance review for this tenting work is covered under a separate document, and this additional work was only recently identified. Posts for overhangs will be cut flush with ground surface. There will be no below ground disturbance.
